Acknowledgements

I would like to thank all my students who tested the material that made up the original edition of this book.

In particular, I would like to express my thanks to my cousin Felipe Massafera for the illustrations; Ed Rainbow for his valuable advice and the proofreading of the manuscript and also Heather Jackson for helping me revise the book for the second edition.

I am also very grateful to many friends for their help and comments on the manuscript and especially to all those students who have shared their opinions with me over the years, giving me a greater understanding of the need for such a book.

My special thanks to: Bill Bluck (in memory), Kimberly McGrath, Sueli Rocha, Andréa Dallman, Laura Leite, Gabriella Pallavicini and Kathy Hatch.

Finally, I would like to thank my husband for his constant support and encouragement.

Preface

Portuguese Grammar is the result of my work and experience over 18 years as a private tutor. As a Brazilian native speaker and teacher, I focus on Brazilian Portuguese, however, this book can also be useful for those who are learning European Portuguese.

Portuguese Grammar is a self-study grammar book, written for use without a teacher. It is intended for students who are learning Portuguese as a second language and need a complete, clear, simple and practical grammar handbook for reference.

Portuguese Grammar will be useful for beginners, for whom it provides a foundation, advanced students who just want to brush up their Portuguese and teachers as a reliable reference and additional course material.

Portuguese Grammar is divided into two parts. It is two books in one:

Part I covers all the essential aspects of Portuguese grammar and it contains a list of often confused and misused words, an invaluable reference for all students of Portuguese.

Part II covers all the essential aspects of Portuguese verbs. It is divided into four chapters. The first chapter presents an introduction to Portuguese verbs; the second chapter presents Portuguese tenses in more detail; the third chapter presents tables of regular and irregular verbs conjugated in all tenses and the fourth chapter presents a list of approximately 850 Portuguese verbs, sorted into groups according to their special characteristics.

Portuguese Grammar presents a simple description of the language focusing on current usage. All topics are organized in grammatical categories and into short, easy-to-read sections, so it can be used selectively and flexibly according to need. Each topic focuses on a particular point of grammar, which is illustrated with clear and simple sentences used in everyday conversation between Brazilians. A broad and detailed table of contents provides quick access to those points you need often or find difficult.

Portuguese Grammar is a valuable tool to help you understand how the Portuguese language is structured.

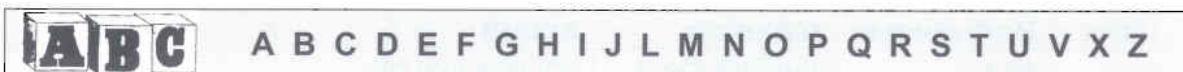

My hope is that everyone who uses this book will enjoy it and take pleasure in speaking Portuguese with confidence and ease.

1. INTRODUCTION

1.1. The Portuguese alphabet

The Portuguese alphabet consists of **23 letters** (**5 vowels** (a, e, i, o, u) and **18 consonants** (b, c, d, f, g, h, j, l, m, n, p, q, r, s, t, v, x, z)). The letters k, w and y do not belong to the Portuguese alphabet, but they can be used in names or with international terms. e.g. Wagner, Wilson, Yara, kg, km, etc.

Remarks:

- It is important to know how to pronounce the alphabet, as sometimes you have to spell your name or ask someone to spell something for you.
- Pronunciation of the alphabet in Portuguese: á, bê, cê, dê, ê, éfi, gê, agá, i, jóta, éli, êmi, êni, ó, pê, kê, érri, éssi, tê, u, vê, xis, zê and cá, dábliu, ípsilon.
- Letters alone are masculine and as such o should be used to denote the (e.g. o A, o B, o C, etc.), but if they are preceded by the word *letra* (letter) which is feminine in Portuguese, a should be used to denote the (e.g. a letra A, a letra B, a letra C, etc.)

1.2. Accents and graphic signs

Familiarize yourself with accents and graphic signs used in Portuguese because they help you pronounce words correctly by indicating which syllable is stressed, whether the pronunciation is open, closed or has a nasal sound, etc.

·	Acute indicates that the pronunciation is open as in <i>café</i> (coffee), <i>avó</i> (grandmother) and <i>chá</i> (tea).
^	Circumflex indicates that the pronunciation is closed as in <i>você</i> (you), <i>avô</i> (grandfather) and <i>lâmpada</i> (lamp).
~	Tilde indicates a nasal sound as in <i>mão</i> (hand) and <i>limões</i> (lemons).
..	Two dots indicate that u is pronounced as in <i>tranquilo</i> (quiet).
'	Grave indicates a contraction of the preposition a and the definite article a (a + a = à) (to).
,	Apostrophe indicates the suppression of one vowel as in <i>à prova d'água</i> (waterproof). Apostrophe is normally used only in connection with the word <i>água</i> (water), e.g. <i>um copo d'água</i> = <i>um copo de água</i> (a glass of water).
-	Hyphen is normally used to link compound words as in <i>guarda-chuva</i> (umbrella), to link verbs and pronouns as in <i>sente-se</i> (sit down), to link verbs and objects as in <i>encontrei-o</i> (I met him) and also to divide any word at the end of the line due to lack of space.

1.3. Pronunciation guide

Below you will find all the sounds found in Portuguese. The comparison with English words should help you pronounce the words correctly, but note that not every sound can be reproduced perfectly in written form.

Z	zero	zero	before a vowel sounds like [z]	zero
	feliz, felizmente	happy, fortunately	after a vowel or before a consonant sounds like [s]	must

Remark: The letter x has several different pronunciations.

1.4. Nasal sounds

Nasal sounds are difficult for most students to reproduce. Try to pronounce the words without thinking too much about it. This pronunciation comes naturally and it is better when you don't try too hard to imitate the nasal sound.

nasal sound	Portuguese	English
ã ãe ão	irmã, mãe, pão	sister, mother, bread
ãi õe ui	câibra, limões, muito	cramp, lemons, very

Remark: Any vowel followed by **m** (am, em, im, om, um) or **n** (an, en, in, on, un) may have a slight nasal sound. e.g. **bom** (good), **banco** (bank).

1.5. Combination of vowels

Combination of vowels means two or three vowels, which come together.

vowels	Portuguese	English
ae ai ao au	Moraes, pai, ao , aula	surname, father, to, class
ea ei éi	área, lei, geléia	area, law, jam
eo eu éu	vídeo, Europa, céu	video, Europe, sky
ia ie io iu	notícia, série, sério, saiu	news, grade, serious, he left
oa oi ói ou	amêndoа, boi, herói, ouro	almond, ox, hero, gold
ua ue ui uo	água, tênuе, ruivo, vácuо	water, tenuous, red-haired, vacuum
uai uão	Paraguai, saguão	Paraguay, lobby

1.6. Combination of consonants

Double consonants besides **rr/ss** can frequently be seen in surnames, normally of Italian origin (e.g. Celegatti). As in English, consonants can also be combined with **l** as in **clima** (climate) or **r** as in **Brasil** (Brazil). There are other combinations of consonants besides the consonants presented in this Pronunciation Guide, but the pronunciation does not differ very much from English as in **advogado** (lawyer), **infecção** (infection), **compacto** (compact), **corrupto** (corrupt), **observação** (remark), **optar** (to opt), etc. Exceptions are **psicologia** (psychology) or **pneu** (tire) where the **p** is pronounced.

1.7. Stress

In Portuguese there are words of one, two, three or more syllables like **chá** (tea), **livro** (book), **português** (Portuguese), **telefone** (telephone). The stress always falls on any one of the last three syllables. It may have an accent, like in **você** (you), **médico** (physician) or may not have an accent, like in **festa** (party), **loja** (shop). The **most commonly stressed** syllable is the **second to last syllable** like **livro** (book), **água** (water), **estudante** (student), **comida** (food), etc.

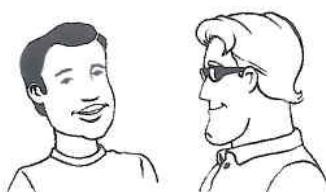

1.8. Different regional pronunciations

As Brazil is a huge country the pronunciation can vary slightly from region to region, but in general you will not have problems understanding regional accents. Below there are examples of the **most common different pronunciations**. Note that there are **two major different pronunciations** and both are correct. As sounds cannot be reproduced here, find Brazilian friends from São Paulo and Rio to pronounce the following words for you.

letter	Portuguese	English
r	carta, revista, carro, Conrado	letter, magazine, car, name
s x z	escola, inglês, sexta-feira, feliz	school, English, Friday, happy
e o	ele, livro	he, book
de di	cidade, dia	city, day
te ti	contente, tipo	happy, type

Remarks:

- Before a consonant or after a vowel, as in *carta* (letter), **r** can be pronounced like the French *r* as in *jour* or like the English *r* as in *morning*. However, if **r** is placed at the beginning as in *revista* (magazine), doubled as in *carro* (car) or placed after **n** as in *Conrado* (name), the pronunciation is similar to the English **h**, but it varies slightly from region to region.
- If **s/x/z** precede another consonant or come after a vowel as in *escola* (school), *inglês* (English), *sexta-feira* (Friday) or *feliz* (happy), they vary slightly in pronunciation in different regions.
- At the end of a word **e** is normally pronounced like [e] as in *ele* (he) and **o** is pronounced like [oo] as in *livro* (book) if they are unstressed. But don't try to pronounce every **e** like [e] and every **o** like [oo]. Just listen to how the people speak and with time you won't have any problem at all.
- In Brazil, the pronunciation of the following **de/di/te/ti** can be a bit tricky. Depending on the region, these sounds can be hard (Recife) or soft sounding (Rio) and both are correct. The soft sounding one is pronounced with a sound similar to the word *edge* as in *cidade* (city) and *dia* (day) and *cheap* as in *contente* (happy) and *tipo* (type). Note that the use of the **soft sound** is a **feature of the Brazilian speech** and the pronunciation can vary. With **de** and **te** for example, the soft sound does not always apply as in *dedo* (finger), *federal* (federal), *televisão* (TV), *tesouro* (treasure), etc. If you like the soft sound you will pick it up easily if you live in Brazil for a while.

Você é paulista? Não, sou carioca.
Are you from São Paulo? No, I am from Rio.

2. SIMILARITIES BETWEEN PORTUGUESE AND ENGLISH

Even though English is not a Latin language, there are more similarities between Portuguese and English than you might imagine. However, pronunciation and stress can sometimes be very different between English and Portuguese. You can expand your vocabulary very quickly if you remember these endings:

Portuguese		English	
acto/ato	impacto/contato	act	impact/contact
ecto/eto	aspecto/projeto	ect	aspect/project
ado/ada	irritado/irritada	ed	irritated
al/o	natural/típico	al	natural/typical
ante	importante	ant	important
ente/ento	presidente/talento	ent	president/talent
ável/ível	provável/possível	able/ible	probable/possible
ção	informação	tion	information
cia/ça	experiência/sentença	ce	experience/sentence
cia	democracia	cy	democracy
dade	cidade	ty	city
es	especial	s	special
esso	sucesso	ess	success
fia	filosofia	phy	philosophy
fone	telefone	phone	telephone
gem	garagem	age	garage
gia	tecnologia	gy	technology
ia/io	família/aniversário	y	family/anniversary
ico	público	ic	public
isar/izar	avistar/organizar	ise/ize	advise/organize
ismo	turismo	ism	tourism
ista	dentista/analista	ist/yst	dentist/analyst
ivo/iva	positivo/alternativa	ive	positive/alternative
ma	programa/problema cinema	am/em/ma	program/problem cinema
mente	exatamente	ly	exactly
mento	documento	ment	document
ogo	diálogo	gue	dialogue
or	diretor	or	director
oso/o	famoso/próspero	ous	famous/prosperous
ro	centro	er	center
são	televisão	sion	television
ssão	expressão	ssion	expression
ta	diplomata/astronauta	at/aut	diplomat/astronaut
ura/uro	cultura/futuro	ure	culture/future
uto	minuto	ute	minute

3. WORD ORDER

In general, the structure of a sentence in Portuguese does not differ very much from English.

adverb	subject	verb	direct object	indirect object
Ontem	eu	comprei	uma camiseta branca	para você.
Yesterday	I	bought	a white T-shirt	for you.

As in English, there are different types of sentences.

sentences	Portuguese	English
positive statement	Ele é americano.	He is American.
negative statement	Ele não é americano.	He is not American.
question	Ele é americano?	Is he American?
question tag	Ele é americano, não é?	He is American, isn't he?

In a sentence not only the subject and the verb must agree, but also **the subject (or noun) and the adjective must agree** in gender and in number.

sentences	Portuguese	English
singular/masculine	Ele é americano.	He is American.
singular/feminine	Ela é americana.	She is American.
plural/masculine	Eles são americanos.	They are American.
plural/feminine	Elas são americanas.	They are American.

Remarks:

- In Portuguese, adjectives can be either masculine or feminine, singular or plural.
- Unlike English, in Portuguese the lower case letter is used to write months, nationalities, days of the week and seasons of the year. Like English, the capital letter is generally used to begin a sentence, to write proper nouns, titles of people, etc.
- In a question just raise your voice at the end of the sentence as in English.
- *Não* (no/not), used as *not*, is always placed before the verb in Portuguese.
- The question tag is different from English and not as frequently used as in English. To form a question tag the same verb used in the beginning of the sentence must be repeated in the question tag. e.g. Você **fala** português, **não fala**? (You speak Portuguese, don't you?)
- The question tag *não é*, frequently used in speech, is contracted to *né* in colloquial Portuguese and it is also often used with other verbs meaning *isn't it true/right?* e.g. Você **fala** português, **né**? (You speak Portuguese, right?)

4. ACCENTS

If you are a beginner, you don't have to worry about accents. Even some native speakers have problems writing accents correctly. For those who want to learn how to use accents in Portuguese, here are the rules:

4.1. Words stressed on the third last syllable

All words stressed on the third last syllable have an accent on that syllable.

Portuguese	English
médico, ônibus, número, triângulo	doctor, bus, number, triangle

4.2. Words stressed on the second last syllable

words ending in	Portuguese	English
ã ão	órfã, órgão	orphan, organ
ea eo oa	área, óleo, amêndoа	area, oil, almond
ei eis	jóquei, túneis	jockey, tunnels
i is us	táxi, tênis, vírus	taxi, tennis, virus
ia ie io	Ásia, cárie, rádio	Asia, cavity, radio
l n r x	fácil, náilon, zíper, Félix	easy, nylon, zip, Felix
ua ue uo	água, tênuе, indivíduо	water, tenuous, individual
ee oo um uns	lêem, vôo, álbum, álbuns	they read, flight, album, albums

4.3. Words stressed on the last syllable

words ending in	Portuguese	English
one syllable	nós, pé, chá, mês	we, foot, tea, month
stressed	sofá, você, café, vovô,	sofa, you, coffee, grandpa,
á ê é ô ó	vovó	granny
em ens	ninguém, parabéns	nobody, congratulations

4.4. Words stressed either on the second last or on the last syllable

words containing	Portuguese	English
éi éu ói	idéia, hotéis, chapéu, jóia	idea, hotels, hat, jewel
í ú	saída, país, saúde	exit, country, health

Remarks:

- There is no accent if i comes before m, n, nh, r, u, and z. e.g. ruim (bad), ainda (still), rainha (queen), sair (to leave), saiu (he left) and raiz (root).
- Note that some words have an accent for special reasons. e.g. pode/pôde (can/could), por/pôr (for/to put), por que/por quê (why at the beginning/end of a phrase), para/pára (for/it stops), à(s) (preposition a + definite article a = à) and feminine expressions like à noite (in the evening), às vezes (sometimes), etc.

5. HYPHENATION

When breaking the word with a hyphen, the hyphen is usually inserted between syllables (units of sound). The word **Brasil** has two syllables **Bra-sil** and the word **brasileiros** has four syllables **bra-si-lei-ros**.

Portuguese	English
au-la, lei-te, no-tí-cia, ou-ro	class, milk, news, gold
di-a, sa-í-da, vô-o, pa-ís	day, exit, flight, country
cho-co-la-te, mu-lher, di-nhei-ro, pra-to	chocolate, woman, money, plate
ad-vo-ga-do, psi-có-lo-go, in-fec-ção	lawyer, psychologist, infection
car-ro, as-si-na-tu-ra, pis-ci-na	car, signature, swimming pool
des-li-ga-do, de-sen-vol-vi-do	switched off, developed

Remark: Avoid breaking words, or buy a dictionary which shows where to hyphenate words.

6. PUNCTUATION MARKS

The use of punctuation marks does not differ very much from English.

symbol	Portuguese	English
.	(o) ponto final	full stop
,	(a) vírgula	comma
:	(o) ponto-e-vírgula	semicolon
:	(os) dois-pontos	colon
...	(as) reticências	ellipsis
?	(o) ponto de interrogação	question mark
!	(o) ponto de exclamação	exclamation mark
-	(o) hífen = tracinho	hyphen
—	(o) travessão	dash
/	(a) barra	slash/oblique/solidus
,	(o) apóstrofo	apostrophe
“ ”	(as) aspas (entre aspas)	quotation marks
()	(os) parênteses (entre parênteses)	parentheses
{ }	(as) chaves (entre chaves)	braces
[]	(os) colchetes (entre colchetes)	brackets
*	(o) asterisco	asterisk
@	(a) arroba	at
&	e	ampersand

Como se escreve isto em português?
How do you write this in Portuguese?

7. ARTICLES

7.1. The definite article

article	masculine	feminine	English
singular	o	a	the
plural	os	as	the

The definite article is more frequently used in Portuguese than in English. It is used before nouns, some countries, continents, oceans, seas, rivers, group of islands, chains of mountains, deserts, regions, seasons of the year, days of the week, colors, possessive pronouns, parts of the body, titles and even before people's names in some regions of Brazil. **The definite article refers to a particular object. It specifies the object and at the same time it indicates its gender and number.**

Portuguese	English
o livro	the book
a casa	the house
o Brasil	Brazil
a Europa	Europe
o rio Amazonas	the Amazon River
as Maldivas	Maldives
os Alpes	the Alps
o Nordeste	the Northeast
o verão	summer
(o) domingo	Sunday
o azul	the blue color
(o) meu carro	my car
o Dr. Paulo, o Sr. Paulo	Dr. Paul, Mr. Paul
(o) Pedro, (a) Maria	Peter, Mary

Remarks:

- The use of the definite article before people's names is grammatically incorrect, but it is very common in some regions, especially in the South.
- The use of the definite article before titles and names is only used when talking about a person, not when addressing him or her directly.
- The use of the definite article before possessive pronouns, the days of the week, etc. is optional (indicated by parentheses above).
- In Portuguese the definite article (not the possessive pronoun) is normally used with parts of the body and articles of clothes. e.g. Cortei o dedo. (I cut my finger.) – Vou tirar o casaco. (I am going to take off my coat.)
- Unlike English, in Portuguese the definite article is not used before musical instruments. e.g. Ela toca piano. (She plays the piano.)

- In Portuguese, the definite article (not the indefinite) is used in expressions of price. e.g. R\$5 o quilo, o metro, a dúzia (R\$5 a kilo, a meter, a dozen)

Portuguese	English
O livro está na mesa.	The book is on the table.
A professora é brasileira.	The teacher is Brazilian.
O Brasil fica na América do Sul.	Brazil is in South America.
Vou lavar as mãos.	I am going to wash my hands.

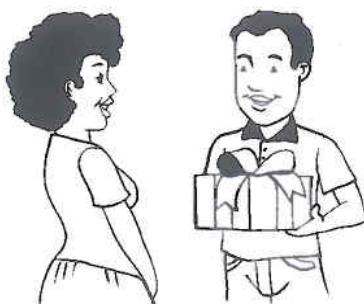

7.1.1. The definite article and prepositions

prep. + article	masculine	feminine	English
de + o(s), a(s)	do(s)	da(s)	of the, from the
em + o(s), a(s)	no(s)	na(s)	in the, on the, at the
a + o(s), a(s)	ao(s)	à(s)	to the, for the
para + o(s), a(s)	para o(s)	para a(s)	to the, for the
por + o(s), a(s)	pelo(s)	pela(s)	for the, by the

Portuguese	English
Estamos no Hotel Vila Rica.	We are in the Vila Rica Hotel.
Eles moram em São Paulo.	They live in São Paulo.
Ela gosta do Brasil.	She likes Brazil.
Vocês também vão à festa?	Are you also going to the party?
Preciso ir ao supermercado.	I have to go to the supermarket.
A aula começa às duas horas.	The class begins at two o'clock.
Vamos para o Brasil em maio.	We are going to Brazil in May.
Obrigado pela informação.	Thanks for the information.

Remarks:

- The preposition must always agree with the following word, which can be masculine, feminine, plural, singular or none of them.
- Prepositions às, à and ao (at) are also used to say the time in Portuguese.
- The definite article is omitted when used before one's home, but obligatory when used before someone else's home. e.g. Eu vou para casa. (I am going home.) - Eu vou para a casa dele. (I am going to his house.)

Muito obrigado pelo presente.
Thanks very much for the gift.

7.2. The indefinite article

article	masculine	feminine	English
singular	um	uma	a/one
plural	uns	umas	some

The indefinite article is used before singular nouns. **It represents no particular person or thing.** There is also a plural form which is used to show an approximation or as alternative to *alguns/algumas* (some).

Portuguese	English
um livro	a/one book
uma casa	a/one house
uns 5 livros	approximately 5 books
uns amigos	some friends

Remark: Be aware that in Portuguese the indefinite article is not used to denote a profession, in expressions of speed or ratio nor in exclamations. e.g. Ele é professor. (He is a teacher.); 20km **por** hora (20 km **an** hour); uma vez **por** dia (once **a** day); Que casa bonita! (What a nice house!).

Portuguese	English
Há um livro na mesa.	There is a book on the table.
Conheço uma professora brasileira.	I know a Brazilian teacher.
O Brasil é um país tropical.	Brazil is a tropical country.

7.2.1. The indefinite article and prepositions

prep. + article	masculine	feminine	English
de + um, uma	de um = dum	de uma = duma	of a, from a
em + um, uma	em um = num	em uma = numa	in a, on a, at a
a + um, uma	a um	a uma	to a, for a, at a
para + um, uma	para um	para uma	to a, for a
por + um, uma	por um	por uma	for a, by a

Remark: In Brazil, the contraction *dum/duma* (of/from) is rarely used.

Portuguese	English
Estamos num hotel.	We are in a hotel.
Eles moram numa casa.	They live in a house.
Preciso de uma cadeira.	I need a chair.
Nós vamos a um barzinho.	We go to a pub.
Telefonei para uma amiga.	I called a friend.
Esperamos (por) uma hora.	We waited for an hour.

8. NOUNS

A noun is a word for naming persons, things, places and animals. In Portuguese, a noun can be either masculine or feminine in gender; singular or plural in number. It is very important to know the gender, otherwise you will not sound Brazilian. The best way to learn the gender of a noun is to memorize it with its definite article. In Portuguese, most of the nouns end in **o** or in **a**. In general, nouns ending in **o** as in *carro* (car) or nouns referring to male people like *amigo* (male friend) or animals like *gato* (male cat), are masculine while nouns ending in **a** as in *casa* (house) or nouns referring to female people like *amiga* (female friend) or animals like *gata* (female cat), are feminine.

Remark: Some adjectives, adverbs and verbs can also be used as nouns if preceded by the definite article. e.g. **o bom**, **o mal**, **o ser** (the good/bad/being).

8.1. Masculine and feminine nouns

8.1.1. Nouns ending in **o** become feminine by changing **o** to **a**

masculine	feminine	English
o amigo	a amiga	the male/female friend
o brasileiro	a brasileira	the Brazilian man/woman

Remarks:

- Exceptions to the above rule: **a tribo** (tribe), **o/a modelo** (model), etc.
- Even people's names have a feminine form. e.g. **Paulo/Paula** (Paul/Paula).
- Words used in their shortened form keep their feminine gender. e.g. **a foto** = **a fotografia** (photo), **a moto** = **a motocicleta** (motorbike)

8.1.2. Nouns ending in **l/or/ês/z** make the feminine by adding **a**

masculine	feminine	English
o espanhol	a espanhola	the Spanish man/woman
o professor	a professora	the male/female teacher
o inglês	a inglesa	the English man/woman
o juiz	a juíza	the male/female judge

Exceptions: **o ator** > **a atriz** (actor/actress), **o cônsul** > **a consulesa** (consul)

8.1.3. Nouns ending in **ão** make the feminine by changing **ão** to **ã/oa/ona**

masculine	feminine	English
o alemão	a alemã	the German man/woman
o patrão	a patroa	the male/female boss
o solteirão	a solteirona	the bachelor/spinster

8.1.4. Nouns ending in a/e/ante/ente/ista/l/r which have both genders

masculine	feminine	English
o colega	a colega	the male/female colleague
o chefe	a chefe	the male/female boss
o estudante	a estudante	the male/female student
o assistente	a assistente	the male/female assistant
o turista	a turista	the male/female tourist
o rival	a rival	the male/female rival
o repórter	a repórter	the male/female reporter

Exception: o poeta > a poetisa

8.1.5. Nouns whose masculine and feminine forms are completely different

masculine	feminine	English
o pai	a mãe	the father/mother
o homem	a mulher	the man/woman
o rei	a rainha	the king/queen
o boi	a vaca	the ox/cow
o macho	a fêmea	the male/female animal

8.1.6. Nouns used for both male or female people and animals

Portuguese	English
a criança	the child
a vítima	the victim
a testemunha	the witness
a cobra	the snake
o camelo	the camel

Remark: Some nouns referring to animals like *cobra* (snake), *camelo* (camel), etc. could be either of masculine or feminine sex. In this case, when one wants to specify the gender of an animal, one should use *macho* (male) or *fêmea* (female) after the noun. e.g. a cobra **macho** (the male snake)

8.1.7. Nouns for which masculine and feminine have different meanings

masculine	feminine	English	
o banheiro	a banheira	the bathroom	the bathtub
o bolso	a bolsa	the pocket	the bag
o cargo	a carga	the position	the load
o porto	a porta	the harbor	the door
o tesouro	a tesoura	the treasure	the scissors

8.4. Plural of nouns

Nouns can be singular or plural in number. Generally, just adding **s** makes the plural form. However, there are also some useful rules, which should be followed in order to be structurally accurate.

8.4.1. Nouns ending in vowels, add s

singular	plural	English
a casa	as casas	the house/houses
a maçã	as maçãs	the apple/apples
o dente	os dentes	the tooth/teeth
o táxi	os táxis	the taxi/taxis
o livro	os livros	the book/books
o caju	os cajus	the cashew/cashews

Remark: Some nouns are used only in the plural form. e.g. **as férias** (holiday), **os óculos** (glasses), etc.

8.4.2. Nouns ending in r/s/z, add es

singular	plural	English
o dólar	os dólares	the dollar/dollars
o mês	os meses	the month/months
o rapaz	os rapazes	the young man/men

Remark: Nouns ending in **s** with no change between the singular and plural form: **o/os ônibus** (bus), **lápis** (pencil), **vírus** (virus), **tênis** (sneakers), **pires** (saucer), etc.

8.4.3. Nouns ending in m, just drop m and add ns

singular	plural	English
o jardim	os jardins	the garden/gardens

Remark: **m** comes only before **b/p**. e.g. **bomba** (bomb), **tempo** (time/weather)

8.4.4. Nouns ending in al/el/ol/ul, just drop l and add is

a pimenta-do-reino (noun+de+noun)	as pimentas-do-reino	the black pepper(s)
o saca-rolhas (verb + plural noun)	os saca-rolhas	the corkscrew(s)

Remark: Compound nouns are not numerous.

9. NOUN SUFFIXES

In Portuguese there are suffixes which can change the size of a noun.

9.1. Diminutive

The diminutive is frequently used in Brazil. It is normally used to show a small version of something, but depending on the context, it is also used to emphasize something, to express affection, irony or even in idiomatic expressions. It is particularly common when one talks to small children or refers to their things. Diminutive names are often used by family members and close friends. The most common diminutive suffixes are **inho/inha** and **zinho/zinha**.

Remarks:

- In general, if a noun is **stressed on the last syllable**, just add **zinho/zinha**, but if it is **stressed on the second last syllable**, just add **inho/inha**. e.g. **café** > **cafezinho** (coffee/small coffee), **livro** > **livrinho** (book/small book)
- A small thing can also be expressed with the adjective **pequeno/pequena** (small). e.g. **um pedacinho** = **um pedaço pequeno** (a small piece).
- Diminutive suffixes are also used with some adjectives and adverbs. e.g. **quentinho** (very warm), **cedinho** (very early)
- **Exception:** The adjective **pequeno/a** is an exception to the above suffix rule. e.g. **pequenininho/a** (very small)

9.1.1. Nouns ending in a/e/o, just drop a/e/o and add inho/inha

regular form	diminutive	English
a casa	a casinha	the small house
o dente	o dentinho	the small tooth
o livro	o livrinho	the booklet

Exception: Some words ending in **io/eio** are made diminutive by dropping **o** and adding **nha/nho**. e.g. **relógio** > **reloginho** (watch), **cheio/a** > **cheinho/a** (full).

9.1.2. Nouns ending in ç/ç/ça/ço/ca/co/ga/go have a minor spelling change

regular form	diminutive	English
o moço	o mocinho	the young man
a praça	a pracinha	the small square
a faca	a faquinha	the small knife
o barco	o barquinho	the small boat
o jogo	o joguinho	the small game/set
a amiga	a amiguinha	the little female friend

9.1.3. Nouns ending in s/z, just add inho/inha

regular form	diminutive	English
Luís	Luisinho	little Luis (pet name)
o nariz	narizinho	the small nose

9.1.4. Nouns ending in stressed á/é/ê/i/ó/ô/u, l/m/r, â/ãe/ão, just add zinho/zinha

regular form	diminutive	English
o sofá	o sofazinho	the small sofa
o café	o cafezinho	the small coffee
o bebê	o bebezinho	the small baby
o abacaxi	o abacaxizinho	the small pineapple
o paletó	o paletozinho	the small jacket
o vovô	o vovozinho	the grandfather (grandpa)
o caju	o cajuzinho	the small cashew
o hotel	o hotelzinho	the small hotel
o jardim	o jardinzinho	the small garden
a colher	a colherzinha	the small spoon
a irmã	a irmãzinha	the little sister
a mãe	a mãezinha	the dear mother
o irmão	o irmãozinho	the little brother

Remarks:

- Nouns ending in **m** are changed to **n** before adding the diminutive suffix because **m** comes only before **b/p** in Portuguese.
- Acute and circumflex accents are dropped when a noun is used in the diminutive form.

Um minutinho, por favor.
Just a minute, please.

9.1.5. Plural of diminutive nouns

In general, just add **s** to the suffix **inho/inha/zinho/zinha**.

regular form	diminutive	English
o livrinho	os livrinhos	the small books
o cafezinho	os cafezinhos	the small coffees
a mãozinha	as mãozinhas	the small hands

Remark: The above rule does not apply for nouns ending in **al/el/ol** and **ão** which make plural form in **ães** or **ões**. Go back to the plural form, drop the **s** and put the **s** at the end of the suffix.

regular form	plural form	diminutive	English
o hospital	os hospitais	os hospitaizinhos	the small hospitals
o hotel	os hotéis	os hoteizinhos	the small hotels
o lençol	os lençóis	os lençoizinhos	the small bed sheets
o pão	os pães	os pãezinhos	the small bread rolls
o avião	os aviões	os aviõezinhos	the small planes
o coração	os corações	os coraçãozinhos	the small hearts

Remark: Acute and circumflex accents are dropped when a noun is used in the diminutive form.

Meu filho adora **livro de estorinhas**.
My son loves **story books**.

9.2. Augmentative

The augmentative is normally used to show a large version of something, but sometimes it can also be used for emphasis, to express admiration or scorn. It is not as frequently used as the diminutive. The **most common augmentative suffixes** used in colloquial Portuguese are **ão/zão** used for masculine nouns and **ona/zona** used for feminine nouns.

Remarks:

- A big thing can also be expressed with an adjective like *grande* (big) or *enorme* (huge). e.g. um pedaço = um pedaço grande/enorme (a big/huge piece).
- Augmentative suffixes can also be used with adjectives. e.g. *grandão* (very big)
- The augmentative is rarely used in the plural form. e.g. *carrões* (big cars)

9.2.1. Masculine suffixes **ão/zão**

regular form	augmentative	English
um carro	um carrão	a big car
um monte	um montão	a big pile
um tempo	um tempão	a long time
(o) Pedro	(o) Pedrão	strong/tall/fat Pedro
bonito	bonitão	handsome
grande	grandão	big, huge

9.2.2. Feminine suffixes **ona/zona**

regular form	augmentative	English
uma mesa	uma mesona	a big table
uma fila	uma filona	a long queue
(a) Cida	(a) Cidona	strong/tall/fat Cida
bonita	bonitona	pretty
grande	grandona	big, huge

Remark: *Bonitão/bonitona* (handsome/pretty) usually refer to a man/woman still in good shape for his/her age.

Já faz **um tempão** que eu não jogo tênis.
I haven't played tennis for a **long time**.

10. COLLECTIVE NOUNS

Collective nouns are singular words, which indicate a group of people, animals or things as a whole. You will discover the most frequently used ones by reading, but here are few examples:

Portuguese	English
um bando de pássaros	a flock of birds
um buquê (de flores)	a bouquet of flowers
um cacho de uvas	a bunch of grapes
uma coleção de selos	a collection of stamps
um pomar de laranjas	an orchard of orange trees
uma multidão (de gente)	a crowd of people

Comprei uma penca de bananas.
I bought a bunch of bananas.

11. ADJECTIVES

Adjectives are used to describe nouns or pronouns and in Portuguese they always agree with the nouns and pronouns they qualify. This means adjectives, colors and nationalities, can be either **masculine** or **feminine** (bonito/bonita - pretty), **singular** or **plural** (bonitos/bonitas - pretty).

Adjectives are usually placed **after** a noun.

Portuguese	English
Tenho alguns amigos brasileiros.	I have some Brazilian friends.
Onde está minha camisa nova?	Where is my new shirt?
Um moço rico, bonito e inteligente.	A rich, handsome and intelligent man.

However, certain adjectives are sometimes placed **before** the noun.

Portuguese	English
Ele é um bom professor.	He is a good teacher.
Ela é uma boa aluna.	She is a good student.
Até a próxima semana!	See you next week.
É a primeira vez que venho aqui.	It is the first time I have been here.

Often, the position of an adjective alters the sense of the phrase.

Portuguese	English
Ele é um velho amigo meu.	He is an old friend of mine.
Ele é um grande homem.	He is a great man.

Some adjectives become nouns and vice-versa.

Portuguese	English
Eu tenho alguns amigos brasileiros .	I have some Brazilian friends.
Os brasileiros adoram futebol.	The Brazilians love football.

Some past participles and expressions often have an adjective function.

Portuguese	English
Nós estamos muito cansados .	We are very tired .
Onde está o jornal de hoje ?	Where is today's paper?

Some adjectives like nouns can also be used in the diminutive form.

Portuguese	English
Sua filha é muito bonitinha .	Your daughter is very pretty .
O bebê dela é tão fofinho .	Her baby is so cute .

11.1. Masculine and feminine adjectives

-	Mato Grosso (MT)	Cuiabá	mato-grossense
o	Mato Grosso do Sul (MS)	Campo Grande	mato-grossense-do-sul
o	Maranhão (MA)	São Luís	maranhense
-	Minas Gerais (MG)	Belo Horizonte	mineiro/a
o	Pará (PA)	Belém	paraense
o	Paraná (PR)	Curitiba	paranaense
a	Paraíba (PB)	João Pessoa	paraibano/a
-	Pernambuco (PE)	Recife	pernambucano/a
o	Piauí (PI)	Teresina	piauiense
o	Rio de Janeiro (RJ)	Rio de Janeiro	fluminense, carioca
o	Rio Grande do Norte (RN)	Natal	rio-grandense-do-norte
o	Rio Grande do Sul (RS)	Porto Alegre	gaúcho/a
-	Rondônia (RO)	Porto Velho	rondoniense
-	Roraima (RR)	Boa Vista	roraimense
-	Santa Catarina (SC)	Florianópolis	catarinense
-	São Paulo (SP)	São Paulo	paulista, paulistano/a
-	Sergipe (SE)	Aracaju	sergipano/a
-	Tocantins (TO)	Palmas	tocantinense

Remarks:

- States can be masculine, feminine or neither.
- Although cities are feminine, they are normally not used in the feminine case.
e.g. Ela mora **em** São Paulo. (She lives **in** São Paulo.)
- Rio de Janeiro, Recife, etc. are exceptions and are masculine. e.g. Ele mora **no** Rio de Janeiro/Recife. (He lives **in** Rio de Janeiro/Recife.)

Ela é de São Paulo e ele é do Rio.
She is **from** São Paulo and he is **from** Rio.

12. ADVERBS

Adverbs are used to modify verbs, adjectives or other adverbs and also to express time or frequency. Almost all adverbs are **invariable**. They are usually placed before or after the word they modify. Adverbs usually answer the questions how/when/where/why. There are several types of adverbs.

12.1. Types of adverbs

12.1.1. Interrogative adverbs

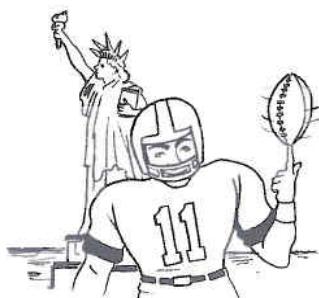

Portuguese	English
Como?	How?
Onde?, Aonde?, De onde?	Where?, To where?, From where?
Quando?	When?
Por que...?/Por quê?	Why?

12.1.2. Adverbs of manner

Portuguese	English
assim	so
bem, mal	well, badly
melhor, pior	better, worse
depressa, devagar	fast, slowly
rápido, rapidamente	fast, quickly
corretamente	correctly

12.1.3. Adverbs of place

Portuguese	English
aqui, cá	here
ai	there
ali, lá	there, over there
além	beyond
atrás	behind
dentro, fora	inside, outside
perto, longe	near, far

Onde ele mora? Nos Estados Unidos.
Where does he live? In the USA.

12.1.4. Adverbs of frequency

Portuguese	English
sempre	always, often
frequentemente	frequently
raramente	rarely
diariamente	daily
nunca	never
jamais	never ever

12.1.5. Adverbs of time

Portuguese	English
agora	now
antigamente	in the past
atualmente	at present, now
imediatamente	immediately
já, ainda	already, still/yet
antes, depois	before, after
cedo, tarde	early, late
logo, breve, brevemente	soon
hoje, ontem, amanhã	today, yesterday, tomorrow

12.1.6. Adverbs of degree

Portuguese	English
bem	very
bastante	enough, a lot
demais	too much
mais, menos	more, less
muito, pouco	very, little
tão, tanto	so, so much
só, apenas	only, just
quase	almost
meio	a bit
todo/toda = completamente	completely

Exception: Adverbs are invariable except for *todo* (completely).

Portuguese	English
Ele estava todo molhado.	He was completely wet.
Ela estava toda molhada.	She was completely wet.

12.1.7. Adverbs of order

Portuguese	English
primeiro, primeiramente	first
segundo	second
depois	after
finalmente	finally
ultimamente	lately

12.1.8. Adverbs of doubt

Portuguese	English
talvez	maybe/perhaps
provavelmente	probably
possivelmente	possibly

12.1.9. Adverbs of certainty

Portuguese	English
claro, lógico	of course, sure, naturally
sim, não	yes, no

Portuguese	English
Ele fala bem português.	He speaks Portuguese well.
Ela chegou ontem.	She arrived yesterday.
Nós moramos aqui.	We live here.
Não saí porque estava chovendo.	I did not go out because it was raining.
Ele fuma demais.	He smokes too much.

Não fui à aula porque eu estava doente.
I didn't go to the class because I was sick.

12.2. Adverbs ending in mente

Adverbs ending in **mente** correspond to adverbs ending in **ly** in English. As in English these adverbs are often derived from adjectives.

12.2.1. Adverbs derived from adjectives ending in e/l/s/z, just add mente

Portuguese		English	
adjective	adverb	adjective	adverb
urgente	urgentemente	urgent	urgently
fácil	facilmente	easy	easily
simples	simplesmente	simple	simply
feliz	felizmente	happy/fortunate	fortunately

12.2.2. Adverbs derived from adjectives ending in o, just change o to a and add mente

Portuguese		English	
adjective	adverb	adjective	adverb
antigo > a	antigamente	old	in the past
completo > a	completamente	complete	completely
imediato > a	imediatamente	immediate	immediately
último > a	ultimamente	last	lately

Remark: If a sentence has two or more adverbs ending in **mente**, only the last one has the suffix **mente**. You can come across this kind of sentence in the written language. e.g. Ele falou **claro** e **rapidamente**. (He spoke **clearly** and **quickly**.)

Portuguese	English
Infelizmente não tenho tempo.	Unfortunately I do not have time.
Atualmente temos 500 funcionários.	At present we have 500 employees.
Preciso ir embora imediatamente.	I have to leave immediately.
Fomos diretamente para o hotel.	We went directly to the hotel.

Antigamente eu fumava muito.
In the past I used to smoke a lot.

12.3. Adjectives used as adverbs

Some adjectives become adverbs without any change in form.

Portuguese	English
alto	loud/high/tall
apressado	hasty
baixo	low/soft
direto	direct
rápido	quick/fast
urgente	urgent

Portuguese	English
Fale mais alto.	Speak louder.
Ele saiu apressado.	He left in a hurry.
Fale mais baixo.	Speak more softly.
Fui direto para o hotel.	I went directly to the hotel.
Anda rápido!	Walk fast!
Preciso falar com você urgente.	I have to talk to you urgently.

12.4. Adverbs used in the diminutive form

Some adverbs can also be used in the diminutive form, like nouns.

Portuguese	English
O escritório é pertinho da minha casa.	The office is very close to my house.
Ela levantou cedinho hoje.	She woke up very early today.
Espera um pouquinho.	Wait a minute.
Ele saiu agorinha mesmo.	He has just left.

Remarks:

- Note that the diminutive form in Portuguese is often equivalent to the emphatic form in English.
- Adverbs used in the diminutive form usually have the same meaning as the superlative. e.g. **pertinho**, **cedinho** = **bem/muito perto/cedo** (very close/early).

Não estou ouvindo. Fale mais alto, por favor.
I can't hear you. Speak louder, please.

12.5. Adverbial phrases

If an adverb has more than one word it is called an adverbial phrase. An adverbial phrase normally begins with a preposition followed by a noun or an adverb.

Tip: Practice using adverbial phrases in real, or imaginary situations.

12.5.1. Adverbial phrases of place

Portuguese	English
à direita, à esquerda	on the right, on the left
ao lado (de/do/da)	beside
abaixo (de/do/da), acima (de/do/da)	under, over
em frente (de/do/da)	in front
em cima (de/do/da), embaixo (de/do/da)	on, under
de perto, de longe,	from nearby, from afar
por dentro, por fora	inside, outside
por aqui, por aí	around here, around there

12.5.2. Adverbial phrases of time

Portuguese	English
de dia, de noite	by day, evening, night
de manhã, pela manhã	in the morning
à noite, de noite	in the evening, at night time
à tarde, de tarde	in the afternoon
às vezes	sometimes
de vez em quando	once in a while
uma vez ou outra	every now and then
hoje em dia	nowadays
em breve	soon
em tempo, a tempo	in time, on time

12.5.3. Adverbial phrases of manner

Portuguese	English
a pé	on foot
à vontade	at ease, as much as one wants
ao contrário	on the contrary
aos poucos	bit by bit
em geral	in general
de cor	by heart
de graça	for free
de propósito	on purpose
de repente	suddenly

12.5.4. Adverbial phrases of doubt/certainty

Portuguese	English
com certeza	certainly, sure, definitely
sem dúvida	no doubt
de jeito nenhum	no way
na verdade	in fact

12.5.5. Adverbial phrases of degree

Portuguese	English
ao todo	altogether
a mais	more

Portuguese	English
Ela chegou à noite.	She arrived in the evening .
Voltamos a pé.	We came back on foot .
Fique à vontade.	Feel at ease/home .
Coma à vontade.	Eat as much as you wish .
Às vezes saio.	Sometimes I go out.
Com certeza ele não vem.	He will certainly not come.
Vi seu irmão de longe.	I saw your brother from afar .
Ele parou de repente.	He stopped suddenly .
Estudo de vez em quando.	I study once in a while .
Vamos ao Brasil em breve.	We are going to Brazil soon .

Vamos viajar para a Austrália **em breve**.
We are going to go to Australia **soon**.

13. COMPARISONS

In Portuguese there are four degrees of comparison.

degree	Portuguese	English
positive	feliz	happy
comparative	mais feliz	happier
superlative I	o mais feliz	the happiest
superlative II	felicíssimo = muito feliz	extremely/very happy

13.1. Comparative

13.1.1. Normal comparative

The comparative is used when two people or things are compared. The comparative can be used with adjectives and also with adverbs. Adverbs are **invariable** while adjectives are **variable** and can be either masculine or feminine, singular or plural. **The adjective always agrees with the noun it qualifies.**

Portuguese	English
mais (do) que	more than
menos (do) que	less than
tanto quanto/como	as as
tão quanto/como	as + adjectives/adverbs as
tanto/tanta quanto/como	as much + uncountable nouns as
tantos/tantas quanto/como	as many + countable nouns as

Remarks:

- Before numerals, *mais/menos de* (more/less or over/under than) is used. e.g. Ele tem **mais/menos de** 20 anos. (He is **over/under** 20 years old.)
- The expression *a mais* (more), does not require *que* (than). e.g. Ele me deu dez reais **a mais**. (He gave me R\$10 **more**.)
- *Do que* (than) can be omitted depending on the context.

Ela é bem **mais alta do que** ele.
She is much taller than him.

Portuguese	English
Esta cor é mais bonita do que aquela.	This color is nicer than that one.
Aquele vestido é menos extravagante.	That dress is less extravagant.
Esta bolsa é tão barata quanto aquela.	This bag is as cheap as that one.
Ele trabalha muito mais do que ela.	He works much more than her.
Ela joga tênis tão bem quanto ele.	She plays tennis as well as him.
Ele ganha menos do que ela.	He makes less than her.
Ele tem tantos amigos quanto ela.	He has as many friends as her.
Eles têm tanto trabalho quanto vocês.	They have as much work as you.
Ela mora mais perto do que nós.	She lives closer than us.
Nós chegamos mais cedo do que ele.	We arrived earlier than him.

Exceptions: The following adjectives and adverbs have an irregular form. Therefore, they cannot be used with *mais/menos ... do que* (more/less... than) to form the comparative.

Portuguese			
positive	comparative	positive	comparative
grande, pequeno	maior(es), menor(es)	big, small	bigger, smaller
bom, ruim	melhor(es), pior(es)	good, bad	better, worse
bem, mal	melhor, pior	well, badly	better, worse

Remark: Adjectives *alto* (high) and *baixo* (low) have also an irregular form *superior/inferior* (superior/inferior) which are followed by *a*, not *do que*. They are normally used when referring to quality or level.

Portuguese	English
Este chá é melhor do que aquele.	This tea is better than that one.
O tempo está pior hoje.	The weather is worse today.
Seu escritório é maior do que o meu.	Your office is bigger than mine.
Aquelas bolsas ali são menores .	Those bags over there are smaller .
Hoje eu estou um pouco melhor .	Today I am a little bit better .
Ele fala inglês melhor do que eu.	He speaks English better than me.
Ela nada melhor do que ele.	She swims better than him.
Aquela marca é superior a esta.	That brand is superior to this one.

Ele toca violão **melhor** **do que** eu.
He plays the guitar **better** **than** me.

13.1.2. Parallel increase

The parallel increase (the + comparative...the + comparative) is expressed by *quanto mais/menos...+ comparative* in Portuguese.

Portuguese	English
Quanto mais cedo você chegar, melhor.	The sooner you arrive, the better .
Quanto mais rápido, melhor.	The quicker, the better.
Quanto menos você falar, melhor.	The less you speak, the better .
Quanto mais o bebê chora, mais nervosa ela fica.	The more the baby cries, the more nervous she becomes.
Quanto mais eu penso, menos eu entendo.	The more I think, the less I understand.
Quanto mais você se irrita, pior é.	The more you become irritated, the worse it is.

13.1.3. Gradual increase and decrease

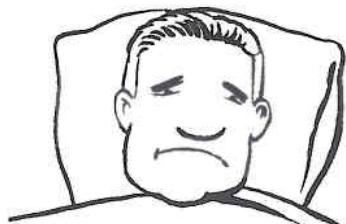

The gradual increase or decrease (two comparatives joined by and) is usually expressed by the expression *cada vez mais/menos* in Portuguese.

Portuguese	English
Está esfriando cada vez mais .	It is getting colder and colder .
Os ricos estão cada vez mais ricos .	The rich are getting richer and richer .
O dólar está subindo cada vez mais .	The dollar is going up more and more .
Ela está comendo cada vez menos .	She is eating less and less .
Ele está melhorando cada vez mais .	He is getting better and better .

13.1.4. Comparison of equality/Simile

In Portuguese, the comparison of equality/simile can be expressed by using *as ... as ...* (*como, feito* or *que nem*).

Portuguese	English
Mudo como/feito/que nem uma porta.	As dumb as a door.
Liso como/feito/que nem sabão.	As slippery as soap.
Magro como/feito/que nem um palito.	As slim as a stick.

Ele está **cada vez melhor**.
He is getting **better and better**.

13.2. Superlative I

The superlative is used when more than two things or people are compared. Adjectives and also some adverbs have superlative forms.

masculine	feminine	English
o(s) mais	a(s) mais	the most
o(s) menos	a(s) menos	the least

Remark: The definite article must always be used when making the superlative.

Portuguese	English
Este é o bar mais famoso da cidade.	This is the most famous pub in the city.
Os mais bonitos são mais caros.	The nicest ones are more expensive.
Moro na casa mais antiga do bairro.	I live in the oldest house in the area.
Este é o hotel mais barato da cidade.	This is the cheapest hotel in the city.
Ela é a garota mais alta da turma.	She is the tallest girl of the group.
As fotos mais bonitas que eu já vi.	The nicest photos that I've ever seen.

Exceptions:

positive	masculine	feminine	English
grande	o(s) maior(es)	a(s) maior(es)	big/the biggest
pequeno	o(s) menor(es)	a(s) menor(es)	small/the smallest
bom	o(s) melhor(es)	a(s) melhor(es)	good/the best
ruim	o(s) pior(es)	a(s) pior(es)	bad/the worst

Portuguese	English
Este é o melhor vinho que temos.	This is the best wine that we have.
Este foi o pior filme que já vi.	This was the worst movie I've ever seen.
As caixas maiores estão ali.	The biggest boxes are over there.
Na sua opinião, qual é a melhor ?	In your opinion, which one is the best ?
O pior de tudo é eu não poder sair.	The worst of all is that I cannot leave.

Ele é o **melhor** aluno da classe.
He is **the best** pupil in the classroom.

13.3. Superlative II

In Portuguese, if you want to say that something is very, or extremely expensive, beautiful, etc. you can express it in two different ways.

By adding the suffixes **íssimo**, **érrimo** or **imo** to the adjective or adverb.

Portuguese		English	
positive	superlative	positive	superlative
caro/a	caríssimo/a	expensive	very expensive
rico/a	riquíssimo/a	rich	very rich
interessante	interessantíssimo/a	interesting	very interesting
pobre	paupérrimo/a	poor	very poor
fácil	facílimo/a	easy	very easy

By placing **muito** (very/extremely) before the adjective or adverb.

Portuguese		English	
positive	superlative	positive	superlative
caro/a	muito caro/cara	expensive	very expensive
rico/a	muito rico/rica	rich	very rich
interessante	muito interessante	interesting	very interesting
pobre	muito pobre	poor	very poor
fácil	muito fácil	easy	very easy

Remark: *Muito* can be replaced with *super*. Note that if *super* is followed by a word beginning with **h** or **r**, a hyphen must be used. e.g. **muito caro** = **supercaro** (very expensive), **super-honesto** (very honest), **super-resistente** (very resistant).

Exception: Adjectives with two superlative forms

Portuguese		English	
bom/boa	muito bom/boa = ótimo	good	very good
ruim	muito ruim = péssimo	bad	very bad

Remark: *Grande/pequeno* (big/small) have superlative forms *máximo/mínimo* (maximum/minimum), which can be used depending on the context. e.g. Vou ficar aqui no **máximo** três dias. (I will stay here **maximum** three days.)

Portuguese		English	
Ela está atrasadíssima hoje.		She is very late today.	
Ele mora pertíssimo daqui.		He lives very close to here.	
Nós voltamos rapidíssimo .		We came back very quickly .	
A praia fica muito longe daqui.		The beach is very far from here.	
Eles voltaram muito cedo.		They came back very early .	

14. PRONOUNS

A pronoun is normally used to replace a noun. Sometimes it is also used along with a noun, or it may be used to avoid repetition. In Portuguese there are **six types of pronouns**: personal, possessive, demonstrative, relative, interrogative and indefinite pronouns.

14.1. Personal pronouns

In Portuguese there are **five types of personal pronouns**: subject, reflexive, prepositional, direct object and indirect object pronouns.

14.1.1. Subject Pronouns

A subject pronoun is used to replace a person or thing who is doing the action and it is the subject of the sentence. Subject pronouns are probably the most frequently used pronouns.

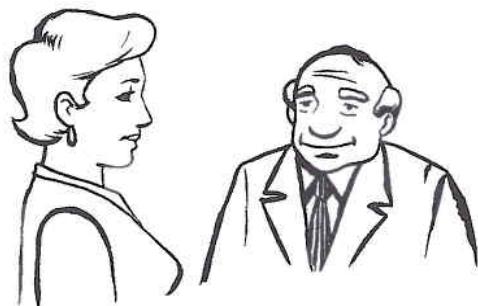

Portuguese singular	English singular	Portuguese plural	English plural
eu	I	nós = a gente	we
você = tu	you	vocês = vós	you
o senhor	you (respect)	os senhores	you (formal)
a senhora	you (respect)	as senhoras	you (formal)
ele	he/it	eles	they (male/mixed)
ela	she/it	elas	they (female)
a gente = nós	we (colloquial)		

Remarks:

- In the spoken language the pronouns *eu/nós* (I/we) are usually omitted, but the other pronouns like *você/vocês*, etc. (you) should not be omitted.
- *Você* and *tu* (you) have the same meaning in Brazil, but *você* is more frequently used than *tu* throughout Brazil. *Tu* is especially used in the south. *Tu* would introduce a new verb form. Tip: Use *você* only. It is all you will need.
- *Você* (you) is informal and it is widely used in almost any situation while *o senhor* and *a senhora* (you) are more formal. They are used as a mark of respect, normally when addressing older people (including parents), important people or people you do not know, but even then only in very formal situations.
- There is no neuter gender (it) in Portuguese. *Ele/ela* (he/she/it) are also used to replace things.
- *A gente* (we) is a colloquial form. It is frequently used in speech instead of *nós* (we). Even though it means we, it is a singular form and therefore it takes a singular verb while *nós* (we) takes a plural verb.
- The plural form *os senhores/as senhoras* (you) is normally used in formal speech when addressing a group of people.

- **Vós** (you) is an outdated form, which can be found in the Bible and old texts. It is no longer used in Brazil. **Vocês** (you) is used instead.
- **Eles** (they) is used for masculine or masculine + feminine mixed. There is also the female plural form **elas** (they), which is used only to replace feminine nouns (women/animal/things).
- There are a few pronouns, which are only used when talking to a president or to a queen, etc. Most people don't have the opportunity to use them so they are not covered here. They can be found in a good dictionary.

Portuguese	English
Eu falo português.	I speak Portuguese.
De onde você é?	Where are you from?
Elas são do Brasil.	They are from Brazil. (women)
Eles estão cansados.	They are tired. (men, men/women)
O senhor aceita um café?	Would you like a coffee? (mark of respect)
A senhora é estrangeira?	Are you a foreigner? (mark of respect)
Nós vamos jantar fora hoje.	We will eat out today.
A gente vai jantar fora hoje.	We will eat out today. (colloquial)

O senhor vai à reunião?
Are **you** going to the meeting?

14.1.2. Reflexive, reciprocal and pronominal pronouns

Reflexive, reciprocal and pronominal pronouns are identical in Portuguese. Because these pronouns are identical, you don't need to distinguish them. To make the study of these pronouns easier, we will call all of them **reflexive pronouns** and all the verbs followed by them **reflexive verbs**. In Portuguese there are verbs like *sentar-se* (to sit down), *encontrar-se* (to meet) and *sentir-se* (to feel) which are followed by the reflexive, reciprocal or pronominal pronoun *se* (oneself) in the infinitive. **Reflexive pronouns** are used along with reflexive verbs and **the action refers back to the subject**. Because a reflexive verb in Portuguese is not necessarily reflexive in English and vice-versa, it may appear strange. Once you know a verb is reflexive, it is easy to use one of the three reflexive pronouns *me* (myself), *nos* (ourselves) and *se* (yourself, yourselves, himself, herself, itself, themselves) used in Portuguese. The **reciprocal pronoun, each other**, is used when **the action is reciprocal**. It is very easy to recognize it as there are at least two people involved in the action. **Pronominal pronouns** are normally used along with verbs of feeling and the action does not necessarily refer back to the subject. A **pronominal pronoun is just part of a verb and it has no function**.

Portuguese		English	
singular	plural	singular	plural
me	nos	myself	ourselves/each other
se	se	yourself	yourselves/each other
se	se	himself/itself	themselves/each other
se	se	herself/itself	themselves/each other

Portuguese	English
Divirta-se!	Amuse yourself.
Ele se chama Pedro.	He calls himself Pedro. (His name is ...)
Sente- se , por favor.	Sit (yourself) down, please.
Eu me levanto às 7 horas.	I get (myself) up at 7:00 o'clock.
Eu não me arrependo de nada.	I do not regret (myself) anything.
Eu não estou me sentindo muito bem.	I am not feeling (myself) very well.
Nós nos conhecemos no Brasil.	We met each other in Brazil.
Eles se amam.	They love each other .

Remarks:

- The reflexive pronoun can be placed before the verb, or after the verb, provided that there is no negative word, conjunction, preposition, adverb, relative pronoun, interrogative or indefinite pronoun before the verb.
Tip: Always put the reflexive pronoun before the verb. This avoids learning any complicated rules.
- In Brazil, the placement of reflexive pronouns before the verb is very common in the spoken and in the written language.

- If a sentence begins with a verb, the reflexive pronoun should be placed after the verb linked by a hyphen. e.g. Sente-se, por favor. (Sit down, please.)
- If there are two verbs (an auxiliary and a main verb) in a sentence, the reflexive pronoun is placed between them. e.g. Eu não estou me sentindo muito bem. (I am not feeling very well.)
- The reflexive pronoun se can change the meaning of a verb completely. *Entender* means *to understand*, but *entender-se* means *to get along*.
- In colloquial Portuguese the reflexive pronoun is sometimes omitted. e.g. colloquial: Senta aqui. – formal: Sente-se aqui. (Sit down here.)

14.1.2.1. Impersonal use of reflexive pronouns

Sometimes the use of the pronoun se is impersonal and it means *one*, *you*, *we*, *they*. Note that in Portuguese the use of the impersonal pronoun is restricted. It is not as widely used as in Spanish, for example.

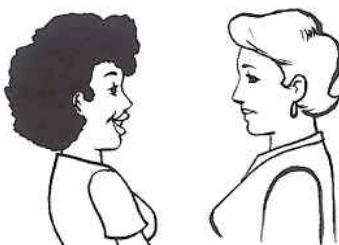

Portuguese	English
No Brasil come-se arroz e feijão todos os dias.	In Brazil they eat rice and beans every day.
Precisa-se de doméstica.	We need a maid.
Como se escreve isto em português?	How do you write this in Portuguese?
É assim que deve se fazer .	This is the way it should be done .

14.1.2.2. Emphasizing pronouns used as reflexive pronouns

Emphasizing pronouns are used merely for emphasis. Therefore, they can be omitted without changing the sense of the sentence.

Portuguese	English
Eu mesma/própria fiz este bolo.	I myself baked this cake.
Ele mesmo/próprio me atendeu.	He himself took care of me.
Ele só pensa em si mesmo.	He thinks only about himself .
Ela só se preocupa consigo mesma.	She worries only about herself .

Remark: *Mesmo(s)/mesma(s)* are equivalent to *próprio(s)/própria(s)*, but the use of *mesmo(s)/mesma(s)* is more common.

Elas **se conhecem** há muito tempo.
They **have known each other** for a long time.

14.1.3. Prepositional pronouns

Prepositional pronouns are pronouns used in conjunction with prepositions.

Portuguese	English
mim	me
você/si/ti	you
o senhor/a senhora	you
ele/ela	him
nós/a gente	us
vocês	you
eles/elas	them

Remark: Prepositional pronouns *ti/si* are normally used only in the written form. *Ti* (you) refers to the pronoun *tu* and *si* (you/him/her/them) refers to the pronouns *você(s)*, *o(s) senhor*, *a(s) senhora(s)*, *ele(s)* and *ela(s)* (you/he/she).

Prepositional pronouns and the most common prepositions.

com (with)	de (of/from)	em (in/on)	para (for/to)	por (for/by)
comigo	de mim	em mim	para mim	por mim
com você	de você	em você	para você	por você
com o senhor	do senhor	no senhor	para o senhor	pelo senhor
com a senhora	da senhora	na senhora	para a senhora	pela senhora
com ele	dele	nele	para ele	por ele
com ela	dela	nela	para ela	por ela
com a gente	da gente	na gente	para a gente	pela gente
conosco	de nós	em nós	para nós	por nós
com vocês	de vocês	em vocês	para vocês	por vocês
com eles	deles	neles	para eles	por eles
com elas	delas	nelas	para elas	por elas

Remarks:

- Some prepositional pronouns are contracted with the preposition.
- Contractions *contigo/consigo* are normally used only in the written form. *Contigo* (with you) refers to the pronoun *tu*; *consigo* (with you/him/her/them) refers to the pronouns *você(s)*, *o(s) senhor*, *a(s)senhora(s)*, *ele(s)* and *ela(s)*.

Portuguese	English
Pensei em você agorinha mesmo.	I thought about you just now.
Senta aqui perto de mim .	Sit down here close to me . (colloquial)
Trouxe um presente para você .	I brought a present for you .
Ele perguntou por vocês .	He asked about you .
Quem vai comigo ?	Who is going with me ?

14.1.4. Direct object pronouns

A direct object pronoun is normally used to replace a direct object in a sentence in order to avoid repetition. A direct object can be a noun (person or thing). In Brazil, the direct object pronoun is usually placed before the verb. It can also be placed after the verb, provided that there is no negative word, adverb, conjunction, preposition, relative pronoun, interrogative or indefinite pronoun before the verb.

Tip: Always put the direct object pronoun before the verb. This avoids learning any complicated rules.

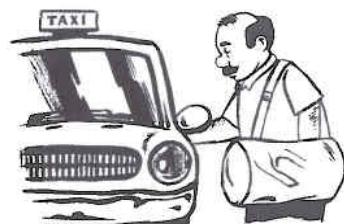

Portuguese	English
me	me
o/a/lo/la/te	you
o/lo	him/it
a/la	her/it
nos	us
os/los/nos	you/them
as/las/nas	you/them

Remark: Some direct object pronouns are identical, but in context you will see the difference.

The recipe below is a good illustration of the use of the direct object pronoun. Note that the noun is replaced with the direct object pronoun in order to avoid repetition.

Portuguese	English
Banana frita	Fried banana
Descasque as bananas.	Peel the bananas.
Corte- as ao meio.	Cut them in half.
Frite- as até dourar.	Fry them until golden brown.
Coloque- as num prato de sobremesa.	Put them on a dessert plate.
Polvilhe- as com canela e açúcar.	Sprinkle them with cinnamon and sugar.
Sirva- as quente.	Serve them warm.

Remark: The direct object pronoun is always placed after the verb when the imperative is used, provided that the sentence is not negative. A sentence should never begin with an object pronoun.

Pensei que ela viesse **me** buscar.
I thought she would come to pick **me** up.

14.1.4.1. Use of direct object pronouns *me*, *te*, *nos*, *o(s)*, *a(s)*

In Brazil, the direct object pronoun is normally not used correctly in speech, but it is used correctly in the written language (newspapers/magazines, etc.). The colloquial form uses subject pronouns instead of direct object pronouns. You should be familiar with both forms as you will see and hear them both.

a) Correct form (written/spoken)

Portuguese	English
Eu o vi, mas ele não me viu.	I saw him , but he did not see me .
Quem o levou ao aeroporto?	Who took you to the airport?
De onde você nos conhece?	Where do you know us from?
Nós a encontramos no clube.	We met her at the club.
Eu os deixei na rodoviária.	I dropped them at the bus station.
Onde você comprou este livro?	Where did you buy this book?
Comprei- o numa livraria.	I bought it in a bookshop.
Eu o comprei numa livraria.	I bought it in a bookshop.

b) Colloquial form (spoken)

Portuguese	English
Eu vi ele , mas ele não me viu.	I saw him (literally he), but he didn't see me .
Quem te levou ao aeroporto?	Who took you to the airport?
Quem levou você ao aeroporto?	Who took you to the airport?
De onde você conhece a gente ?	Where do you know us from?
Nós encontramos ela no clube.	We met her (literally she) at the club.
Eu deixei eles na rodoviária.	I dropped them (literally they) at the station.
Onde você comprou este livro?	Where did you buy this book?
Comprei numa livraria.	I bought (it) in a bookshop.

Remarks:

- The subject pronouns *ele(s)/ela(s)* (he/she/it/they) are used instead of direct object pronouns *o(s)/a(s)* (him/her/it/them) in colloquial Portuguese. This form is wrong, even though it is often used in speech by well-educated people.
- Even though the direct object pronoun *te* (you) refers to the subject pronoun *tu* (you), it is widely used when referring to the subject pronoun *você* (you) instead of the direct object pronoun *o/a* (you). Its use is easier and acceptable in speech. (See 2nd example, part b.)
- The subject pronoun *você/vocês* (you) is acceptable when referring to the subject pronouns *você/vocês* (you), but note that they are always placed after the verb. (See 2nd example, part b.)
- A *gente* (we/us) is a colloquial form. It is also widely used instead of *nós/nos* (we/us) in speech and placed after the verb. (See 3rd example, part b.)

- In Portuguese, the direct object pronoun is optional when it refers to things previously mentioned. (See 6th example, part b.). In fact, direct object pronouns are often omitted in Portuguese in many sentences in which they would be required in English.
- Tip:** It is easy to avoid mistakes by **not** replacing the noun with a pronoun.

Portuguese	English	form
Eu vi Pedro/Maria.	I saw Peter/Mary.	using noun
Eu vi ele/ela.	I saw he/she. (literally)	wrong form
Eu o/a vi.	I saw him/her.	correct form

14.1.4.2. Use of direct object pronouns **lo(s), la(s)**

These forms are only used after an infinitive verb, but the **r** must be dropped and replaced with a hyphen. Normally there are two verbs in the sentence, the main verb and the infinitive form.

a) Correct Form (written/spoken)

Portuguese	English
Prazer em conhecê-lo.	(It is) a pleasure to meet you .
Nós vamos buscá-los no aeroporto.	We will pick you up at the airport.
Vou pegá-las e já volto.	I will fetch them and will be right back.
Quero apresentá-la a minha família.	I want to introduce you to my family.

b) Colloquial form (spoken)

Portuguese	English
Prazer te conhecer.	(It is) a pleasure to meet you .
Vou buscar vocês no aeroporto.	I will pick you up at the airport.
Vou pegar elas e já volto.	I will fetch them (literally they) and will be right back.
Quero te apresentar a minha família.	I want to introduce you to my family.
Quero apresentar você a minha família.	I want to introduce you to my family.

14.1.4.3. Use of direct object pronouns **no(s), na(s)**

Nowadays these direct object pronouns are rarely used even in the written form. They should normally be used after nasal sounds like **m/õe**.

Tip: To avoid this form, always place the pronoun before the verb or do not replace the noun with a direct object pronoun at all as in the following examples.

Portuguese	English
Eles viram Pedro.	Eles viram-no.
Eles viram seu irmão.	Eles viram-no.
Eles o viram.	Eles viram-no.

14.1.5. Indirect object pronouns

An indirect object pronoun is normally used to replace an indirect object in a sentence in order to avoid repetition. There are **two types of indirect object pronouns** and both are frequently used. In Brazil, the indirect object pronoun is usually placed before the verb, but it can also be placed after the verb, provided that there is no negative word, conjunction, preposition, adverb, relative pronoun, interrogative or indefinite pronoun before the verb. In Portuguese there are verbs like *telefonar* (to call), *contar* (to tell), *mostrar* (to show), etc. which are different from English. They are used together with the preposition *para* or *a* and require indirect object pronouns.

Tip: Always put the indirect object pronoun before the verb. This avoids learning complicated rules.

Portuguese			English	
me	para mim	pra mim	me	to me
te/lhe	para você	pra você	you	to you
lhe	para o senhor	pro senhor	you	to you
lhe	para a senhora	pra senhora	you	to you
lhe	para ele	pra ele	him/it	to him/it
lhe	para ela	pra ela	her/it	to her/it
nos	para nós	pra nós	us	to us
lhes	para vocês	pra vocês	you	to you
lhes	para eles	pra eles	them	to them
lhes	para elas	pra elas	them	to them

Remarks:

- Even though the indirect object pronoun *te* (you) refers to the subject pronoun *tu* (you), it is widely used when referring to the subject pronoun *você* (you) instead of the indirect object pronoun *lhe* (you). Its use is easier and acceptable in speech.
- The preposition *para* (to) can be replaced by the preposition *a* (to). Both have the same meaning, but *para* is more frequently used and even shortened to *pra* in the spoken language while *a* is more frequently used in the written language.
- It is not correct to begin a sentence with a indirect object pronoun, but in colloquial Portuguese this rule is ignored and it is common to hear “**Me** dá o leite.” instead of “**Dê-me** o leite.” (Pass me the milk.)
- If a verb like *dar* (to give) requires both a direct and an indirect object in the same sentence, note that in Brazil only one object (direct or indirect) is usually replaced. In the past, both pronouns could be contracted, but this is an outdated form and out of use in Brazil. See the following examples, which use the form used today.

Portuguese	English
Pedro deu um presente a Maria.	Pedro gave a present to Mary.
Pedro deu um presente a/para ela.	Pedro gave a present to her.
Pedro lhe deu um presente.	Pedro gave her a present.
Pedro o deu a Maria.	Pedro gave it to Mary.

a) Examples without para

Portuguese	English
Alguém me telefonou?	Has anyone called me?
Ela lhe/te deu o recado?	Has she given you the message?
Vou lhes escrever uma carta.	I will write them a letter.
Dê-me o leite.	Pass me the milk.

b) Examples with para

Portuguese	English
Alguém telefonou para/prá mim?	Has anyone called me?
Ela deu o recado para/prá você?	Has she given the message to you?
Vou escrever uma carta para/prá eles.	I will write a letter to them.
Dê o leite para/prá mim.	Pass the milk to me.

Remarks:

- Note that *para + pronoun* must be placed after the verb.
- Both forms are identical in meaning and are frequently used.

Tip: Practice only the form you find easiest.

Você pode fazer um favor pra mim?
Can you do me a favor?

14.2. Possessive pronouns

Possessive pronouns are used to show ownership. In Portuguese, possessive pronouns refer to the possessor and to the thing possessed at the same time. Exceptions are possessive pronouns used along with the preposition *de* (of) as in *dele(s)*, *do senhor*, *da gente*, *de vocês* which refer to the possessor and not to the thing possessed. Note that these pronouns are **placed after the noun, which must be preceded by the definite article**. Everything he/she possesses is his/hers. (*dele/dela*), no matter whether the noun is masculine, feminine, singular or plural. Keep in mind that possessive pronouns in Portuguese vary in gender and in number.

masculine	feminine	English
meu(s)	minha(s)	my/mine = of mine
seu(s) = teu(s)	sua(s) = tua(s)	your/yours = of yours
seu(s) = do senhor	sua(s) = do senhor	your/yours = of yours
seu(s) = da senhora	sua(s) = da senhora	your/yours = of yours
seu(s) = dele	sua(s) = dele	his/his, it/its = of him/it
seu(s) = dela	sua(s) = dela	her/hers, it/its = of hers/it
nosso(s) = da gente	nossa(s) = da gente	our/ours = of ours
seu(s) = de vocês	sua(s) = de vocês	your/yours = of yours
seu(s) = deles	sua(s) = deles	their/theirs = of theirs
seu(s) = delas	sua(s) = delas	their/theirs = of theirs

Remarks:

- Note that possessive and adjective pronouns are identical in Portuguese.
- The pronouns *teu(s)/tua(s)* (your/yours) refer to the personal pronoun *tu* (you) and sometimes they are used in colloquial Portuguese instead of *seu(s)/sua(s)* (your/yours), which refers to the pronoun *você* (you).
- Note that everything a thing or an animal possesses is *dele/dela* (his/hers/its).
- In ordinary conversation *seu/sua* (his/her) are replaced by *dele/dela* (his/her). The use of *seu/sua* (his/her) is mainly confined to the written language because *seu/sua* (his/her) might easily be mistaken by *seu/sua* (your).

Portuguese	English
(Os) meus pais são brasileiros.	My parents are Brazilian.
O pai dele é brasileiro. (spoken)	His father is Brazilian.
Seu pai é brasileiro. (written)	
A mãe dele é brasileira. (spoken)	His mother is Brazilian.
Sua mãe é brasileira. (written)	
Os pais dele são brasileiros. (spoken)	His parents are Brazilian.
Seus pais são brasileiros. (written)	

Possessive pronouns used as possessive adjectives and nouns.

Portuguese	English
Este livro é meu .	This book is mine .
Este é meu livro.	This is my book.

The possessive pronoun is usually placed before a noun, but sometimes it is placed after a noun.

masculine	feminine	English
(o) meu amigo	(a) minha amiga	my male/female friend
um amigo meu	uma amiga minha	a male/female friend of mine

In Portuguese, the possessive pronoun is usually preceded by the definite article, which is optional in most of the cases. The definite article is normally used for emphasis.

Remark: If a noun is omitted in a sentence and the speaker does not want to repeat the noun again, the definite article must precede the possessive pronoun.

Portuguese	English
(O) meu livro está na mesa. E o seu?	My book is on the table. And yours ?
(A) minha caneta é azul. E a sua?	My pen is blue. And yours ?

In Portuguese parts of the body and articles of clothes are usually used with the definite article, not with the possessive pronoun as in English.

Portuguese	English
Ele quebrou a perna.	He broke his leg.
Cortei o dedo.	I cut my finger.
Ela tirou o casaco.	She took off her coat.

As in English, the preposition *of* (*de/do/da*) is used for possession.

Portuguese	English
A bicicleta do menino.	The boy's bicycle.
O filho da professora.	The teacher's son.
O estacionamento da loja.	The store's car park.
Os funcionários do banco.	The bank's employees.

Onde está **o meu** livro?
Where is **my** book?

14.3. Demonstrative pronouns

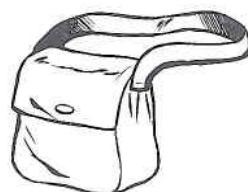

Demonstrative pronouns and demonstrative adjectives are identical in Portuguese. **Demonstrative pronouns are used to point out a thing or person specifically.** In Portuguese, some demonstrative pronouns vary in gender (masculine/feminine) and in number (singular/plural) and others are invariable. **Variable** demonstrative pronouns are always followed by a noun while **invariable** demonstrative pronouns are not. The variable demonstrative pronouns always agree with the noun they refer to.

masculine	feminine	invariable	English
este(s)	esta(s)	isto	this/these
esse(s)	essa(s)	isso	this/these
aquele(s)	aquela(s)	aquilo	that/those

Remarks:

- *Este(s)/esta(s)/isto* (this), normally followed by *aqui* (here), are used to point out things or people **near the speaker**.
- *Esse(s)/essa(s)/isso* (this) are normally followed by *aí* (there near you) and are used to point out things or people **near the person the speaker is talking to**.
- *Aquele(s)/aquela(s)/aquilo* (that) normally followed by *ali/lá* (there/over there) are used to point out things or people **far from both the speaker and the person the speaker is talking to**.
- *Isto/isso/aquilo* (this/this/that) are **invariable** and are not followed by nouns. They are used to substitute nouns, that is, when the speaker does not know or he does not want to mention the name of the object in question.
- In Portuguese, the difference between *este/esta/isto* and *esse/essa/isso* is minimal. **Tip:** If you have difficulty distinguishing both forms, you can simply use *este(s)/esta(s)/isto* for all situations in which *esse(s)/essa(s)/isso* would usually be required.

Portuguese	English
Este livro (aqui) é seu?	Is this book (here) yours?
De quem é essa caneta aí?	Whose pen is that (with you)?
Quero aquelas cartas ali.	I want those letters over there.
O que é isto/aquilo?	What is this/that?

Quanto custa **esta** bolsa?
How much does **this** bag cost?

14.3.1. Demonstrative pronouns and prepositions

There are verbs, which are followed by prepositions. If a verb is followed by the preposition *de* or *em* and you want to make a sentence using a demonstrative pronoun, you have to use the contractions showed in the table below. In Portuguese, *gostar* (to like), for example, is a verb followed by the preposition *de*. If this preposition is omitted, the sentence is wrong.

14.3.1.1. Demonstrative pronouns and the preposition de

preposition + pronoun	masculine	feminine	invariable	English
de + este/esta/isto	deste(s)	desta(s)	disto	this/these
de + esse/essa/isso	desse(s)	dessa(s)	disso	this/these
de + aquele/aquela/aquilo	daquele(s)	daquela(s)	daquilo	that/those

14.3.1.2. Demonstrative pronouns and the preposition em

preposition + pronoun	masculine	feminine	invariable	English
em + este/esta/isto	neste(s)	nesta(s)	nisto	in/on/at
em + esse/essa/isso	nesse(s)	nessa(s)	nisso	this/these
em + aquele/aquela/aquilo	naquele(s)	naquela(s)	naquilo	that/those

Remark: The difference between *neste/nesta/nisto* and *nesse/nessa/nisso*, *deste/desta/disto* and *desse/dessa/disso* is minimal.

Tip: If you have difficulty distinguishing both forms, you can simply use the first form (*neste/nesta/nisto* - *deste/desta/disto*) for all situations in which the second one (*nesse/nessa/nisso* - *desse/dessa/disso*) would usually be required.

Portuguese	English
Gosto deste apartamento.	I like this apartment.
Não gosto desta cerveja.	I do not like this beer.
O senhor precisa daquela cadeira?	Do you need that chair?
Preciso daquelas cartas para amanhã.	I need those letters by tomorrow.
Não preciso mais disto .	I no longer need this .
Não estou interessado nisto .	I am not interested in this .
Você mora neste prédio?	Do you live in this building?
Ela trabalha naquela loja ali.	She works in that shop over there.

Preciso **desta** camisa amanhã cedo.
I need **this** shirt tomorrow morning.

14.4. Relative pronouns

A relative pronoun is used to refer back to an earlier noun or pronoun. It describes a noun in order to distinguish it from other nouns, that is, to make clear which person, or thing, we are talking about. In Portuguese relative pronouns can be **variable** and **invariable**. Invariable pronouns are more frequently used than variable pronouns. Variable pronouns are more difficult and normally used in the written language.

14.4.1. Invariable relative pronouns

Portuguese	English
que	which, that
onde	where
de/com/para quem	of/with/to whom

14.4.2. Variable relative pronouns

masculine		feminine		English
singular	plural	singular	plural	invariable
o qual	os quais	a qual	as quais	which, that
no qual	nos quais	na qual	nas quais	where, in which
do qual	dos quais	da qual	das quais	of whom
com o qual	com os quais	com a qual	com as quais	with whom
para o qual	para os quais	para a qual	para as quais	to whom
cupo	cujos	cuja	cujas	whose

Remarks:

- *Que* (which) is the most frequently used relative pronoun.
- *Onde* (where) is only used for places.
- *Quem* (whom) refers to people and it is always preceded by a preposition.
- *Qual/quais* (which), used as relative pronouns, are always preceded by the definite article or a preposition.
- *Cupo(s)/cuja(s)* (whose) show ownership and always match the following noun.

Portuguese	English
O livro que/o qual comprei.	The book that/which I bought.
A empresa onde/na qual trabalho.	The company where/in which I work.
A moça com quem/com a qual falei.	The lady with whom I spoke to.
O menino cuja mãe está doente.	The boy whose mother is sick.

Este é o presente **que** eu ganhei.
This is the gift **that** I received.

14.5. Interrogative pronouns (question words)

Interrogative pronouns and some adverbs are usually used to make questions.

Portuguese	English
como	how, what
qual, quais	which, what
quando	when
quanto, quanta	how much (male/female)
quantos, quantas	how many (male/female)
onde	where
de onde	from where
para onde, aonde	to where
que	what
o que	what
de que, do que	what about
em que, no que	what about
para que	what for
por que	why
quem	who
com quem	with whom
de quem	whose, about whom
em quem	on, in whom
para quem	to whom

Remarks:

- *Que* and *qual* are the same word (what) in English and are easily confused, but *que* is always followed by a noun while *qual* is followed by a subject pronoun or the verb *to be* (which is often omitted). *Qual* (which) usually implies a choice.
- Question words with *que* (o que, por que, etc.) have a circumflex accent (^) if they stand alone at the end of a sentence. e.g. Não. Por quê? (No. Why?)
- Note that in Portuguese é *que* (is it that) is often used after question words, merely for emphasis. If omitted, it does not change the sense of the sentence. e.g. O que (é que) você está fazendo? (What (is it that) you are doing?)
- Unlike English, in Portuguese it is not possible to move a preposition to the end of the sentence. e.g. **Com quem** você vai? (Whom are you going with?)

Portuguese	English
Como/Qual é seu nome?	What is your name?
Que dia é hoje?	What day is today?
O que (é que) você quer?	What (is it that/do) you want?
Qual (dos dois) você prefere?	Which one (of them) do you prefer?
Quem é aquele senhor?	Who is that gentleman?
Com quem vocês vão?	With whom are you going?

14.6. Indefinite pronouns

Indefinite pronouns are words used to refer to people or things **non-specifically**. Some indefinite pronouns are **variable** while others are **invariable**. As there are many indefinite pronouns, they are grouped to make their study easier.

Portuguese		English	
alguém	ninguém	somebody/anybody	nobody/no one
alguma coisa	nada	something/anything	nothing/anything
algum/alguns	nenhum	some/any (male)	none/any (male)
alguma/algumas	nenhuma	some/any (female)	none/any (female)

Remarks:

- *Alguém/ninguém* (somebody/nobody) refer to people only.
- *Algum/alguns/alguma(s)/nenhum/nenhuma* (any/some/none) refer to things or people and are always followed by a noun.
- *Alguém/algum/alguns/alguma(s)/alguma coisa* are used in positive sentences while *ninguém/nenhum/nenhuma/nada* are used in negative sentences.
- *Ninguém/nenhum/nenhuma/nada* (nobody/no one/nothing) sometimes use a double negative, that is, the verb is in the negative form. e.g. **Não tem ninguém em casa.** (There is nobody at home.) – **Não falei nada.** (I did not say anything.)

Portuguese	English
bastante	a lot
mais, menos	more, less
tal, tais	such
muito(s), muita(s)	much, many
pouco(s), pouca(s)	little, few
tanto(s), tanta(s)	so much, many
certo(s), certa(s)	certain
outro(s), outra(s)	another, others
vários, várias	several
uns, umas	some, about, around

Remarks:

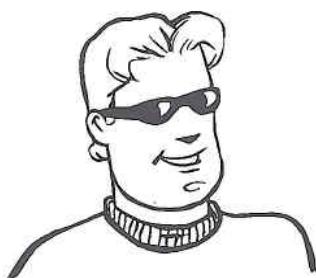

- *Muito/muita* (much), *pouco/pouca* (little) and *tanto/tanta* (so much) are used for **uncountable nouns**.
- *Muitos/muitas* (many), *poucos/poucas* (few) and *tantos/tantas* (so many) are used for **countable nouns**.
- Note that some nouns are **countable** in English, but **uncountable** in Portuguese. e.g. *muito dinheiro* (a lot of money), *muita gente* (a lot of people)

Portuguese	English
cada (um/uma)	each, every (one)
qualquer (um/uma)	any, either (one)
tudo	everything
todo, toda = inteiro, inteira	whole, entire
todos (os), todas (as)	all, every

Remarks:

- Sometimes *cada* (each) and *todos/todas* (every) have the same meaning in English and for this reason they are easily confused.
- Qualquer* (any) means *no particular one*.
- Todo/toda* can be placed before or after the noun. e.g. Ele trabalhou **todo o dia** = **o dia todo**. (He worked **the whole day**.)
- Todos/todas* are sometimes replaced with *todo/toda* in colloquial Portuguese. e.g. Eu caminho **todo dia**. (instead of **todos os dias**) (I walk every day.)

Portuguese	English
Alguém me telefonou?	Has anyone called me?
Ninguém falou nada .	Nobody said anything .
Você quer beber alguma coisa ?	Would you like something to drink?
Eles têm alguns amigos brasileiros.	They have some Brazilian friends.
Temos muito trabalho hoje.	We have a lot of work today.
Geralmente não tomo muita cerveja.	Usually I do not drink much beer.
Ele não dormiu a noite toda/inteira .	He did not sleep the whole night.
Todos os turistas são americanos.	All the tourists are American.
Vocês entenderam tudo ?	Did you understand everything ?
Quanto custa cada cartão postal?	How much does each postcard cost?
Você pode ir a qualquer banco.	You can go to any bank.
Você pode me mostrar outra cor?	Can you show me another color?
Certas coisas ele nunca vai entender.	Certain things he will never understand.
Havia tanta gente lá.	There were so many people there.
Eles têm muito dinheiro.	They have a lot of money.

Alguém aqui fala inglês?
Does **anybody** here speak English?

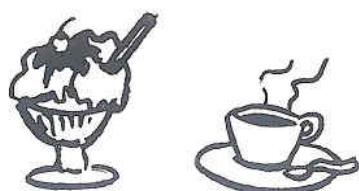

15. CONJUNCTIONS

Conjunctions, also called connecting words, are used to connect words, phrases, clauses and sentences.

Portuguese	English
apesar de	despite, in spite of
caso	in case
como	because, like, as
contudo	nevertheless
e	and
embora	in spite of, even though
enquanto	as long as
então	then
entretanto	however
logo	therefore
mas	but
não...nem = não...nem...nem	neither...nor
ou	or
pois	then
por isso	for this reason
porém	but, however
porque	because, why
portanto	therefore
quando	when
que	that
se	if
senão	otherwise

Remark: In Portuguese the conjunction *que* (that) is more frequently used than in English. In sentences like *Ele acha/sabe/disse que...* (He thinks/knows/said that...) the conjunction *que* (that), cannot be omitted.

Portuguese	English
Ele vai, mas eu não vou.	He is going, but I am not.
Eu acho que ele está doente.	I think that he is sick.
Estava chovendo quando saí de casa.	It was raining when I left home.
O livro e a caneta estão na mesa.	The book and the pen are on the table.

Eu pedi um sorvete e um cafezinho.
I ordered an ice cream and a coffee.

15.1. Conjunctions + que (that)

Conjunctions + *que* usually introduce the subjunctive mood.

Portuguese	English
a menos que	unless
a não ser que	unless
ainda que	even if
antes que	before
assim que	as soon as
contanto que	provided that
depois que	after
desde que	provided that
já que	since
logo que	as soon as
mesmo que	even if
nem que	even if
para que	in order to
por mais que	no matter how (much)
sempre que	always when
uma vez que	since

Portuguese	English
Eu não vou à festa mesmo que eles me convidem.	I will not go to the party even if they invite me.
Vamos embora assim que eles chegarem.	We are going to leave as soon as they arrive.
Você pode ficar aqui desde que você não me atrapalhe.	You can stay here provided that you don't disturb me.
Por mais que ele trabalhe, ele não fica rico.	No matter how much he works, he does not get rich.
Eu vou falar com ela depois que eles saírem.	I will talk to her after they have left.
Eu vou com você a não ser que chova.	I will go with you unless it rains.

Vou escrever para ela **mesmo que** ela não me responda.
I will write to her **even if** she does not reply to me.

16. PREPOSITIONS

Prepositions are words, which are used before a noun or pronoun to indicate its place, position, or time. Unlike in English, verbs used after prepositions must be in the infinitive, not in the gerund form. e.g. Antes de sair. (Before leaving.) A preposition can be required in Portuguese, but not in English, and vice-versa and not always the same preposition is required. The use of prepositions can vary from language to language and this is difficult to master. Only with some practice will you use prepositions correctly.

Portuguese	English
a	to, for, at
ante, perante	before
após	after
até	till/until/by
com	with
como	as
conforme	according to
contra	against
de	of, from, about, by
desde	since, from
durante	during, for
em	in, at, on
entre	between, among
para	to, for, in order to
per	per
por	for, through, by, after, per
segundo	according to
sem	without
sob	under
sobre	on, about

Remarks:

- Practice only the prepositions you will need and try to learn the most important verbs and expressions along with their prepositions.
- Remember that prepositions usually vary in gender and in number if they are followed by nouns. Refer back to 7.1.1 and 7.2.1 (The definite/indefinite article and prepositions), on page 27-28.
- The preposition *por* has several different meanings and it is used with some verbs, in some adverbial or prepositional phrases and in idiomatic expressions.
- The prepositions *para* and *por* are often confused because they sometimes have the same meaning. Generally speaking *para* indicates direction.

Portuguese	English
Eles moram em São Paulo.	They live in São Paulo.
Tomo café sem açúcar.	I drink coffee without sugar.
O gerente do hotel é meu amigo.	The manager of the hotel is my friend.
Quando você vai para o Brasil?	When are you going to Brazil?
Nós viemos de carro.	We came by car.
Quanto você pagou por esta blusa?	How much did you pay for this blouse?
Obrigado pela informação.	Thanks for the information.
Vamos viajar (por) duas semanas.	We are going to travel for two weeks.
Eles vivem de aluguel.	They live on rent. (on the rent they receive)

Remark: When *por* (for) is used for a period of time, it is usually omitted.

16.1. Prepositional phrases

If a preposition has more than one word it is called a prepositional phrase. A prepositional phrase is an expression you need to memorize. Keep in mind that some prepositions can vary in gender (masculine/feminine) or in number (singular/plural) depending on the context.

Portuguese	English
a fim de	in order to
a partir de	from... (onwards)
a respeito de	about
ao lado de	beside, close to
abaixo de	under
acima de	over, above
além de	besides, after, beyond
antes de	before
apesar de	in spite of
atrás de	behind
através de	through
cerca de	around, about
de acordo com	according to
debaixo de	under
de cima de	from top, from above
dentro de	inside, within, in
depois de	after
devido a	due to
embaixo de	under
em cima de	on, on top of
em frente de/a	in front of

por causa de	because, due to
por cima de	over
por trás de	behind
por volta de	around, about
próximo a/de	close to

Portuguese	English
Vamos para casa depois da aula .	We are going home after the lesson .
A escola fica perto do banco .	The school is close to the bank .
Não fui à aula por causa da chuva .	I didn't go to class because of the rain .
Quem é aquele rapaz atrás de você ?	Who is that guy behind you ?
Graças a Deus não aconteceu nada.	Thank God nothing happened.

O jornal está **em cima da mesa**.
The newspaper is **on the table**.

17. EXCLAMATION

An exclamation, also called an interjection, is a word used to express exclamation or an emotional feeling.

Portuguese	English
Nossa! Tenho que ir (embora).	Gosh! I have to leave now.
Puxa! Que caro, heim!	Wow! How expensive it is!
Ei! Moço!	Hey! Young man!
Oba! Passei no exame!	Wow! I have passed the examination!
Ai! Que dor!	Ouch! That hurts!
Ah! Que bom!	Ah! Great!

Remarks:

- Depending on the intonation, an interjection can express different feelings.
- Sometimes it is difficult to translate an interjection to another language, but in a context you will always understand what is meant.
- In both Portuguese and English an exclamation is followed by an exclamation mark.

Nossa! Estou atrasadíssimo.
Gosh! I am extremely late.

18.1. General remarks about numerals

18.1.1. Masculine and feminine numbers

In Portuguese, the numbers 1, 2 and from 200 to 900 (ending in **entos**) are feminine when they are followed by a feminine noun, otherwise the masculine form is used.

Portuguese	English
um lápis	one/a pencil
dois livros	two books
trezentos dólares	three hundred dollars
página 2 (dois)	page 2 (two)
dois minutos	two minutes

Portuguese	English
uma caneta	one/a pen
duas cervejas	two beers
trezentas pessoas	three hundred people
duas páginas	two pages
duas horas	two hours, two o'clock

18.1.2. Number 6

In Brazil, when saying telephone numbers, usually **meia** (half a dozen) is used for number 6 instead of **seis** (six). e.g. Tel. 2654-0266 (dois, **meia**, cinco, quatro, zero, dois, **meia**, **meia**).

18.1.3. Number 100

Cem is only used for 100. (From 101 on, **cento** must be used.)

18.1.4. Number 1000

Mil (one thousand) has no plural form and no preposition is required when it is followed by a noun. **Um** before **mil** is commonly used when writing checks, but its use is optional. e.g. mil reais = **um** mil reais (one thousand reais)

Portuguese	English
1000 (mil) convidados	1000 guests
2000 (dois mil) habitantes	2000 inhabitants
2000 (duas mil) pessoas	2000 people

18.1.5. Million, billion and trillion

Milhão, *bilhão* and *trilhão* (million/billion/trillion) are masculine, have a plural form and the preposition *de* (of) is required when they are followed by a noun.

Portuguese	English
um milhão de habitantes	one million inhabitants
cinco milhões de habitantes	five million inhabitants
um bilhão de dólares	one billion dollars
dois bilhões de dólares	two billion dollars

18.1.6. Use of the conjunction *e* (and)

The word *e* (and) is used between the tens (28 = vinte e oito) and the hundreds (140 = cento e quarenta). It is also used when there is no hundred (1010 = mil e dez), no tens (2001 = dois mil e um) or only zeros (1900 = mil e novecentos).

Portuguese	English
1008 mil e oito	one thousand and eight
1098 mil e noventa e oito	one thousand and ninety-eight
1900 mil e novecentos	one thousand nine hundred
1908 mil novecentos e oito	one thousand nine hundred and eight
1998 mil novecentos e noventa e oito	one thousand nine hundred and ninety-eight

Remarks:

- Note that a point and not a comma is used to separate the thousands in Portuguese. e.g. US\$5.300,00 (US\$5,300.00).
- Numbers referring to years are not read as in English. e.g. 1999 = mil novecentos e noventa e nove (one thousand nine hundred and ninety-nine).

18.1.7. Use of ordinal numbers

Ordinal numbers can be either masculine or feminine (*primeiro/primeira*) in gender, and singular or plural (*primeiros/primeiras*) in number. In speech, ordinal numbers are commonly used up to the 40th, when saying the floor in a high rise building. Ordinal numbers are also used to say the first day of the month (e.g. 1º de maio – 1st of May), but for the second day onwards, cardinal numbers are used (e.g. 2 de maio – 2nd of May).

Portuguese	English
7º andar	7 th floor
2ª feira (segunda-feira)	Monday

Remark: The short form of the ordinal number is different from English.

18.1.8. Use of Roman numbers

Roman numbers are usually used up to XXX in proper nouns, to divide chapters and when talking about centuries.

Portuguese	English
Papa Paulo VI (sexto)	Pope Paul VI (the sixth)
século XX (vinte)	twentieth century (century twenty)

Remark: Ordinal numbers are used to read the Roman numbers from I to X, but from XI on cardinal numbers are used. In legal terms (laws) ordinal numbers are used to read the Roman numbers from I to IX and from X on cardinal numbers are used.

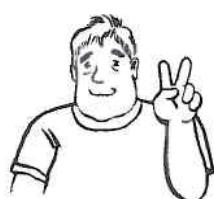

18.1.9. Reading other numbers

Portuguese	English
1,5kg	one and a half kilos
1%	one per cent
10%	ten per cent
US\$1	one dollar
US\$10	ten dollars
US\$2,3 milhões	two point (literally comma) three million dollars

18.2. Mathematical expressions

symbol	Portuguese	English
+	mais	plus/and
-	menos	minus
X	vezes/multiplicado por	times/multiplied by
:	dividido por	divided by
=	igual a	equals, is equal to
≠	diferente de	is not equal to
>	maior que	more than
<	menor que	less than
%	por cento	per cent

Remark: X is also used for score ($2 \times 0 = \text{dois a zero}$) and dimensions ($1\text{m} \times 2\text{m} = \text{um metro por dois metros}$)

Quantas pessoas? **Duas**.
How many people? **Two**.

18.3. Multiple numerals

Portuguese	English
dobro/duplo	double
triplo	triple
quádruplo	quadruple
quíntuplo	quintuple
sêxtuplo	sextuple
séptuplo	septuple
óctuplo	octuple
nônuplo	nonuple
décuplo	decuple

Remark: Multiple numerals are usually preceded by the masculine definite article.
e.g. Paguei o dobro do preço. (I paid double the price.)

18.4. Fraction numerals

Portuguese	English
meio/meia	half
terço(s)	third(s)
quarto(s)	quarter(s)
quinto(s)	fifth(s)
sexto(s)	sixth(s)
sétimo(s)	seventh(s)
oitavo(s)	eighth(s)
nono(s)	ninth(s)
décimo	tenth
onze avos	eleventh
doze avos	twelfth
centésimo(a)	hundredth
milésimo(a)	thousandth

18.5. Collective numerals

Portuguese	English
a dúzia	dozen
a dezena	ten
a quinzena	fortnight
a centena	hundred
o bimestre	two months
o trimestre	quarter
o semestre	half year
o século	century

8:50	oito e cinqüenta	dez para as nove
8:55	oito e cinqüenta e cinco	cinco para as nove
9:00	nove horas	

Remarks:

- In Portuguese, different verbs (plural/singular) and prepositions are used to say the time depending on the gender (masculine/feminine) and number (singular/plural).
- São, às, para as, das* (it's/at/to/from) are used for plural numbers.
- É, ao, para o, do* (it's/at/to/from) are used only for *meio-dia* (twelve o'clock).
- É, à, para a, da* (it's/at/to/from) are used for *meia-noite* (mid-night) and *uma hora* (one o'clock).

Saying a.m. or p.m. in Portuguese

Portuguese	English

Ela viaja todos os anos para o Nordeste.
She travels every year to the Northeast region.

23. WORDS EASILY CONFUSED OR MISUSED

Here you will find a list of easily confused and often misused words. They are in alphabetical order and divided into two groups: verbs and other words.

23.1. Aprender – Estudar

Aprender means *to learn something new* and *estudar* means *to learn what you have already learned*. *Estudar* also means *to study* (to go to school or university).

Portuguese	English
Onde você aprendeu inglês?	Where did you learn English?
Eu ainda não aprendi verbos.	I have not learned verbs yet.
Ela tem que estudar os verbos.	She has to learn the verbs.
Ele estuda numa escola pública.	He studies at a public school.

23.2. Estar – Fazer

These verbs have different meanings.

Portuguese	English
Está muito frio.	It is very cold. (today)
Está fazendo muito frio.	It is very cold. (now)
Na Antártica faz muito frio.	In the Antarctic it is very cold. (always)

23.3. Gostar – Gostaria

Gostar means *to enjoy* or *to like* while *gostaria* is the conditional form of *gostar* and it is only used in conditional sentences or as a polite form.

Portuguese	English
Eu gosto de dançar.	I like dancing.
Eu gostaria de dançar.	I would like to dance.
Se eu soubesse dançar, eu gostaria de dançar.	If I knew how to dance, I would like to dance.

23.4. Ir – Andar

Sometimes verbs *ir* and *andar* have exactly the same meaning (to ride, to fly, etc.). However, in Portuguese *ir* means *to go to somewhere* and it must be **followed by a destination**, while *andar* is **not followed by a destination**.

Portuguese	English
Eu vou ao Brasil de avião.	I am going to Brazil by plane.
Eu ando muito de avião.	I fly a lot.
Eu adoro andar a cavalo.	I love riding on horseback.

23.5. Ir – Vir

Ir (to go) is used to indicate a movement **away from the speaker** or the place where the speaker is at the moment of speaking while *vir* (to come) is used to indicate a movement **toward the speaker**, or the place where the speaker is at the moment of speaking. If used to indicate a movement, *ir* (to go) is followed by the adverbs *lá/ali* (there) while *vir* (to come) is followed by the adverbs *aqui/cá* (here). The adverb is often omitted, but try to use it, at least mentally, in order to make it easier to distinguish both and not to misuse them.

Portuguese	English
Ele não foi à aula hoje.	He didn't go to class today.
Ele não veio à aula hoje.	He didn't come to class today.

23.6. Levar – Trazer

Levar (to take) is used to indicate a movement **away from the speaker** or the place where the speaker is at the moment of speaking while *trazer* (to bring) is used to indicate a movement **toward the speaker**, or the place where the speaker is at the moment of speaking. If used to indicate a movement, *levar* (to take) is followed by the adverbs *lá/ali* (there) while *trazer* (to bring) is followed by the adverb *aqui* (here). The adverb is often omitted, but try to use it, at least mentally, in order to make it easier to distinguish both and not to misuse them.

Portuguese	English
Vou levar as crianças (<i>lá</i>).	I will take the children (there).
Vou trazer as crianças (<i>aqui</i>).	I will bring the children (here).

23.7. Pedir – Perguntar

Perguntar is used *to ask a question* while *pedir* is used *to ask for something*.

Portuguese	English
Ele não me perguntou .	He did not ask me.
Ele pediu uma salada.	He ordered a salad.

Ele me **perguntou** se eu queria ir ao cinema.
He **asked** me if I wanted to go to the movies.

23.8. Precisar – Precisar de

In Brazil, there is a difference between these verbs. *Precisar* means *to have to* or *must* and it is **followed by an infinitive verb** while *precisar de* means *to need* and it is **followed by an object**.

Portuguese	English
Precio ir ao banco.	I have to go to the bank.
Precio de dinheiro.	I need money.

23.9. Provar – Experimentar – Tentar

These verbs are often confused, as they are the same word in English.

Portuguese	English
Posso provar/experimentar esta camisa?	Can I try on this shirt?
Quero provar/experimentar este vinho.	I want to try this wine.
Eu vou tentar falar com ele.	I will try/attempt to talk to him.

23.10. Saber – Conhecer

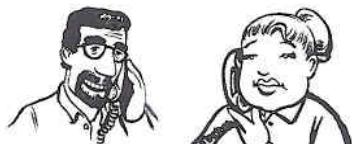

Saber means *to know something*, or *to know how to do something*, while *conhecer* means *to know a place, or a person*.

Portuguese	English
Eu sei onde fica esta rua.	I know where this street is.
Eu sei nadar.	I know how to swim. (I can swim.)
Eu conheço esta rua.	I know this street.

23.11. Saber – Poder – Conseguir

Both *saber* (to know how to do something) and *poder* (to be able to) can be translated into English as *can*. However, *poder* is also translated as *may*, *to be able*, depending on the context. *Conseguir* means *to manage*, *to be able*, *to get*, *to obtain* and *can* depending on the context.

Portuguese	English
Ela não sabe nadar.	She cannot swim. (at all)
Ela não pode nadar.	She cannot swim. (today)
Posso entrar?	May I come in?
Não consegui falar com ele.	I couldn't manage to talk to him.

A senhora **sabe** quando ele volta?
Do you **know** when he will be back?

23.12. Ser – Estar

In Portuguese, both verbs *ser* and *estar* are the verb *to be* in English, and their correct use is difficult. *Ser* is used for permanent or unchangeable situations like nationality, origin, profession, marital status, etc.

Portuguese	English
Ela é bonita. (sempre)	She is pretty. (always)
Ele é de São Paulo.	He is from São Paulo.
O carro é grande.	The car is big.
É muito caro.	It is very expensive.

Estar is used for temporary or changeable situations, also for a state of being.

Portuguese	English
Ela está bonita. (hoje)	She is pretty. (today)
Ele está em São Paulo.	He is in São Paulo.
O carro está quebrado.	The car is broken.
Está muito caro.	It is very expensive.

23.13. Ser – Estar – Ficar – Andar – Viver

These verbs are often confused as they mean more or less the same in English.

Portuguese	English
Ele é nervoso.	He is nervous. (always)
Ele está nervoso.	He is nervous. (now)
Ele fica nervoso.	He becomes/gets nervous.
Ele anda nervoso.	He has been nervous. (lately)
Ele vive nervoso.	He is nervous. (always)

23.14. Ter – Sentir – Estar

Sentir and *ter* have the same meaning in English. Their use is, to some extent, interchangeable and is normally linked with a given time. (e.g. at 11 o'clock, at this time, after my gym class, when, etc.). *Estar* is used for temporary situations and it is more frequently used than *ter/sentir*.

Portuguese	English
Eu sempre tenho/sinto fome a esta hora.	I always feel hungry at this time.
Eu estou com fome.	I am hungry. (now)
Eu tenho medo de cachorro.	I am afraid of dogs. (always)
Eu estou com medo do cachorro.	I am afraid of the dog. (now)

23.15. Ter – Ter que

Ter means *to have* (possession) and it is followed by an object while *ter que* or *ter de* (obligation) means *to have to* or *must* and is followed by a verb.

Portuguese	English
Você tem filhos?	Do you have children?
Ele tem que viajar amanhã.	He has to travel tomorrow.

23.16. Tocar – Jogar – Brincar

All these verbs are easily confused because they have the same meaning (to play) in English. *Tocar* is used for **instruments**; *jogar* is used for **sports/cards** and *brincar* is used for **children's play**.

Portuguese	English
Ele toca violão.	He plays the guitar.
Você joga tênis/cartas?	Do you play tennis/cards?
As crianças estão brincando.	The children are playing .

Remark: *Tocar*, *jogar* and *brincar* have also other meanings.

Portuguese	English
O telefone está tocando.	The telephone is ringing .
Joguei o papel no lixo.	I threw the paper away .
Você está brincando?	Are you kidding ?

23.17. Impersonal verbs

Impersonal verbs are unrelated to a particular person. They often refer to natural phenomenon and are only used in the 3rd person singular (*it*). Some verbs like *fazer* (to make/to do) can also be used as an impersonal verb, but their original meaning can change completely when used as an impersonal verb.

Portuguese	English
Choveu muito ontem.	It rained a lot yesterday.
Dá pra você ligar depois?	Can you call me later?
Faz um ano que moro aqui.	I've lived here for a year . (It makes...)
Há muita gente aqui.	There are many people here.
Tem muita gente aqui.	There are many people here.

Você sabe jogar cartas?
Do you know how to **play** cards?

23.18. Verbs + prepositions

In Portuguese, there are verbs which are followed by prepositions that differ from English. Try to learn the most important verbs along with the prepositions and remember that a preposition usually varies in gender (masculine/feminine) and in number (singular/plural), if it is followed by a noun.

Portuguese	English
Ele gosta muito do Brasil.	He loves Brazil.
Ele começou a trabalhar.	He began working.
Não posso ir à reunião.	I cannot go to the meeting.
Você precisa destas cartas?	Do you need these letters?

23.19. Verbs + que

In Portuguese, there are some verbs which require the conjunction *that* (*que*) while in English it is not required at all, or it can be omitted. The conjunction *que* (*that*), is especially used to introduce the subjunctive mood.

Portuguese	English
Acho que ele está em casa.	I think that he is at home.
Ele disse que ele não pode.	He said that he cannot.
Espero que não chova.	I hope that it will not rain.
Ele quer que eu vá com ele.	He wants me to go with him.
Eu sei que ele tem tempo.	I know that he has time.

23.20. Bem – Bom

Bem (well) is an **adverb**. It is used with a verb, an adjective or an adverb and it is **invariable**. *Bom* (good) is an **adjective**, it is used with a noun and it is **variable**. Remember that in Portuguese adjectives vary in gender and in number. The opposite of *bem* is *mal* and the opposite of *bom/boa* is *ruim* or *mau/má*. Instead of using opposites, you can put the sentence in the negative.

Portuguese	English
Ele fala inglês muito bem .	He speaks English very well .
O café (não) está muito bom .	The coffee is (not) very good .
Boa idéia!	Good idea!

Bom dia!
Good morning!

23.21. De – Do – Da

Try to grasp the correct use of *de/do/da* as early as possible because they are frequently used and their purpose can vary depending on the context.

purpose	Portuguese	English
to link words	livro de português	Portuguese book
to show ownership	o carro do/de Pedro o carro da/de Maria	Peter's car Mary's car
to specify something	o gerente do banco o gerente da firma	the manager of the bank the manager of the firm
to generalize	Preciso do dinheiro. Preciso de dinheiro.	I need the money. I need money.

23.22. Dois – Duas

In Portuguese, numbers 1 and 2 (also numbers containing number 1 or 2 like 21, 22, 31, 32, etc.) and from 200 to 900 (ending in **entos**) are feminine if they are followed by a feminine noun. However, if they are used just as numbers or followed by a masculine noun, they take the masculine form.

Portuguese	English
Dois ingressos, por favor.	Two tickets, please.
Duas cervejas, por favor.	Two beers, please.

23.23. Férias – Feriado

Férias means *vacation* or *holiday* and *feriado* means a *public holiday*.

Portuguese	English
Boas férias!	Have a nice holiday!
Hoje é feriado.	Today is a public holiday .

23.24. Gente – A gente

Gente (people) and *a gente* (we/us) are often confused in Portuguese. *Gente* is usually used without the definite article, it is uncountable and its synonym is *pessoa(s)* while *a gente* is a colloquial form, always preceded by the definite article and it is often used instead of *nós/nos* (we/us) in speech.

Portuguese	English
Oi, gente!	Hi, everybody!
Nossa! Quanta gente!	Wow! What a crowd!
Tem muita gente aqui.	There are many people here.
A gente não sabe ainda.	We still do not know.
Você vai com a gente ?	Are you going with us ?

23.25. Mas – Mais

Both words are often confused because in spoken Portuguese their pronunciation can be similar for both. *Mas* means *but* and *mais* means *more*.

Portuguese	English
Eu gosto, mas ele não.	I like it, but he doesn't.
Quer mais café?	Would you like more coffee?

23.26. Me – Mim

These two words are sometimes confused as they are the same word in English. *Me* is used **before or after a verb**, while *mim* is used **after a preposition**.

Portuguese	English
Ele me ajudou bastante.	He helped me a lot.
Você ainda precisa de mim ?	Do you still need mim ?

23.27. Muito – Pouco

Muito (very/a lot) and *pouco* (little) used as adverbs are invariable. However, *muito* (many/much) and *pouco* (little/few) used as indefinite pronouns are variable in gender (*muito/muita*) and in number (*muitos/muitas*). The singular form is used with uncountable nouns while the plural form is used with countable nouns.

Portuguese	English
A casa é muito bonita.	The house is very nice.
Ele trabalha muito/pouco .	He works a lot/little .
Ele tem muitos/poucos amigos.	He has many/few friends.
Ele bebe muita/pouca água.	He drinks a lot of/little water.

23.28. O que – Que – Qual

O que, *que* and *qual* have sometimes the same meaning and can easily be confused. *O que* and *qual* are always followed by a subject pronoun (*você*) and a verb while *que* is always followed by a noun. *Qual* usually implies a choice. *O que* and also other question words are usually followed by *é que* (is it that/ever), which is merely used for emphasis and can be omitted without altering the sense of the sentence.

Portuguese	English
O que (é que) você disse?	What (is it that) you said?
Que horas são?	What time is it?
Qual (dos dois) você quer?	Which (of the two) do you want?
Qual/Como é seu nome?	What is your name?

23.29. País – Pais – Parentes

These words have different meanings. *País* (stressed on i) means *country*, has two syllables and may be hyphenated (pa-ís) while *pais* means *parents* or *fathers*, has one syllable and cannot be hyphenated. *Parentes* does not mean *parents* as you may expect, it means *relatives*.

Portuguese	English
De que país ele é?	Which country is he from?
Meus pais são italianos.	My parents are Italian.
Temos muitos parentes .	We have many relatives .

23.30. Para – Por

These prepositions are often confused with each other as they sometimes have the same meaning in English. Only with some practice will you use them correctly. *Para* indicates *direction* and can vary in gender (para o, para a) and in number (para os, para as). *Para* also means *to, for* and *in order to*.

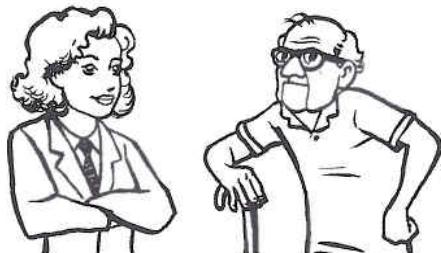

Portuguese	English
Nós vamos para o Brasil.	We are going to Brazil.
Eu vou dar este livro para ela.	I will give this book to her.

Para, para o, para a can be shortened to *pra, pro, pra* or replaced with *a, ao, à*.

Portuguese	English
Nós vamos ao/pro Brasil.	We are going to Brazil.
Eu vou dar este livro a/prá ela.	I will give this book to her.

Por is very often used in idiomatic expressions, along with certain verbs, as the agent of the passive voice and also to indicate time (but in this case, its use is optional). *Por* can also vary in gender (pelo, pela) and in number (pelos, pelas).

Portuguese	English
Obrigado/a por tudo.	Thanks for everything.
Eu fui atendido/a pela Dra. Ana.	I was examined by Dr. Ann.
Nós passamos pelo aeroporto.	We passed by the airport.
Eu vou viajar (por) dois dias.	I will travel for two days.

O **pai** dela já é aposentado.
Her **father** is already retired.

PART II – PORTUGUESE VERBS

CHAPTER I – INTRODUCTION TO PORTUGUESE VERBS

A verb is an action or a doing word in a sentence. It is perhaps the most important word in a sentence and must always be present to complete an idea. In Portuguese there are more tenses available and the endings of verbs are more varied. Therefore, Portuguese verbs are much more complicated than English verbs.

1. CONJUGATION

There are three conjugations, that is, three different verb groups in Portuguese.

conjugations	Portuguese	English
verbs ending in ar	falar	to speak
verbs ending in er	beber	to drink
verbs ending in ir	assistir	to watch

Remarks:

- Most verbs are regular.
- It is very important to distinguish the ending of a verb because all regular verbs with one of the three endings follow the model for that ending.
- Verbs ending in ar are the most common in Portuguese.
- There are also a few verbs ending in or, like *pôr* (to put), but they really belong to the group of verbs ending in er because in the past *pôr* used to be *poer*.
- All verbs ending in por are irregular.

2. TENSE

A tense indicates when the action takes place, or may take place.

past	present	future	conditional
			
Tomei um suco.	Estou comendo pizza.	Vou tomar um sorvete.	Gostaria de tomar um cafezinho.
I drank a juice.	I am eating pizza.	I will eat an ice cream.	I would like to drink a coffee.

In Portuguese, a tense can be called **simple tense** or **compound tense**. A simple tense consists of only **one verb**, that is, the main verb while a compound tense consists of **two verbs**, that is, an auxiliary verb and the main verb.

tense	Portuguese	English
simple	Ele trabalha numa empresa.	He works in a company.
compound	Ele vai trabalhar amanhã.	He will work tomorrow.

3. MOOD

In Portuguese, the verbs are divided into **three different groups**, called **moods**.

3.1. Indicative

The indicative is used to express a **sure fact**.

Portuguese	English
O telefone está tocando .	The telephone is ringing .

3.2. Subjunctive

The subjunctive is used to express **an unsure or a possible fact, a wish, etc.** It is mainly used in dependent clauses.

Portuguese	English
Eu espero que chova hoje.	I hope it will rain today.

Remarks:

- The subjunctive is used after certain verbs, expressions, conjunctions, relative pronouns and adverbs. The subjunctive is difficult to understand because it is used differently in English and it doesn't correspond exactly in tense to the Portuguese tense. You will have to learn the subjunctive by heart because you cannot work it out by pure translation from the English form.
- The study of the subjunctive is for advanced students, but in the early stage you can easily communicate in Portuguese using simple sentences that do not require the subjunctive.

3.3. Imperative

The imperative is used to express a **command or request**.

Portuguese	English
Diga a ela que eu ligo de volta.	Tell her that I will call her back.

4. INFINITIVE

In Portuguese, there are two kinds of infinitive. One is called **impersonal infinitive**, which is the name of a verb like *falar* (to speak) and the other one is called **personal infinitive** which is also used in the plural form.

Remark: Both infinitives can be confused; however, if the plural form can replace the singular form, it is a personal infinitive.

4.1. Impersonal infinitive

Portuguese	English
falar	to speak
beber	to drink
assistir	to watch

The impersonal infinitive is normally used alone or together with other verbs. It is often used after the main or the auxiliary verb and also after prepositions.

Portuguese	English
Eu sei falar português.	I know how to/can speak Portuguese.
Gosto de beber cerveja.	I like to drink beer.
Assistir (à) televisão é muito divertido.	Watching TV is a lot of fun.

4.2. Personal infinitive

The personal infinitive is a feature available only in the Portuguese language. It is changeable according to the person it matches (*falar/falar/falarmos/falarem*).

Portuguese	English
falar/falar/falarmos/falarem	to speak
beber/beber/bebermos/beberem	to drink
assistir/assistir/assistirmos/assistirem	to watch

The personal infinitive is normally used with a few particular verbs like *ver* (to see), *ouvir* (to hear), *deixar* (to allow), etc., in sentences beginning with *É...* (It is...), instead of the present subjunctive and mainly after prepositions *de* (of/from), *para* (for), *por* (for), *sem* (without), etc.

Portuguese	English
É melhor vocês não falarem nada.	It is better you do not say anything.
É melhor eles beberem outra coisa.	It is better they drink something else.
É melhor nós assistirmos (à) televisão.	It is better we watch TV.

5. PARTICIPLES

Participles are divided into two groups: **present participle** and **past participle**.

5.1. Present participle (or gerund)

Portuguese	English
falando	speaking
bebendo	drinking
assistindo	watching
pondo	putting

The present participle or gerund, is normally used along with the auxiliary verb *estar* (to be) to form continuous tenses and with a few other verbs. It is not used after prepositions and it does not have a noun or an adjective function as in English.

Portuguese	English
Alô, quem está falando ?	Hello, who is speaking ?
Eu estou bebendo/tomando café.	I am drinking coffee.
Talvez eles estejam assistindo (à) TV.	Maybe they are watching TV.
Ela está pondo a roupa.	She is putting on her clothes.
Ele vive reclamando .	He is always complaining .

5.2. Past participle

The past participle is used along with the auxiliary verb *ter* (to have) to form perfect tenses. It is also used along with the auxiliary verb *ser* (to be) to form the passive voice, with the auxiliary verb *estar* (to be) and sometimes also with *andar/viver* (to be) to form the stative passive. As in English, there are regular and irregular past participles in Portuguese.

Remarks:

- A past participle can be regular in Portuguese while irregular in English or vice-versa.
- Be aware that past participles vary depending on the verb they are used with: Past participles used along with the auxiliary verb *ter* (to have) to form perfect tenses are **invariable**, while past participles used with the auxiliary verb *ser*, *estar*, *andar* and *viver* (to be) to form the passive voice, or the stative passive, are **variable** (in gender and in number).

O telefone **está tocando**.
The telephone **is ringing**.

5.2.1. Regular past participle

Portuguese	English
falado	spoken
bebido	drunk
assistido	watched

Remark: Regular participles are made by dropping ar and adding ado to verbs ending in ar and by dropping er/ir and adding ido to verbs ending in er/ir.

Portuguese	English
Você tem falado com ele ultimamente?	Have you talked to him lately?
Eu nunca tinha bebido caipirinha antes.	I had never drunk caipirinha before.
Eu não tenho assistido (à) televisão.	I have not watched TV lately.

5.2.2. Irregular past participle

Portuguese			
verb	past participle	verb	past participle
abrir	aberto	to open	opened
cobrir	coberto	to cover	covered
descobrir	descoberto	to discover	discovered
dizer	dito	to say	said
escrever	escrito	to write	written
fazer	feito	to make/do	made/done
ganhar	ganho/ganhado	to win/earn	won/earned
gastar	gasto/gastado	to spend	spent
pagar	pago/pagado	to pay	paid
pôr	posto	to put	put
ver	visto	to see	seen
vir	vindo	to come	come

Remark: There are only a few irregular past participles and because most of them are frequently used, they are soon memorized.

Portuguese	English
O que você tem feito ?	What have you been doing lately?
O que você teria feito ?	What would you have done ?

A porta está **aberta**.
The door is **open**.

5.2.3. Verbs with two past participles

In Portuguese, there are a few verbs like *pagar* (to pay) which have **two past participles**, a **regular** past participle (*pagado*) and an **irregular** past participle (*pago*).

Portuguese				English	
verb	regular	irregular		verb	participle
aceitar	aceitado	aceito(s)	aceita(s)	to accept	accepted
acender	acendido	aceso(s)	acesa(s)	to light	lit
eleger	elegido	eleito(s)	eleita(s)	to elect	elected
entregar	entregado	entregue(s)	entregue(s)	to deliver	delivered
enxugar	enxugado	enxuto(s)	enxuta(s)	to dry	dried
exprimir	exprimido	expresso(s)	expressa(s)	to express	expressed
expulsar	expulsado	expulso(s)	expulsa(s)	to expel	expelled
ganhar	ganhado	ganho(s)	ganha(s)	to win	won
gastar	gastado	gasto(s)	gasta(s)	to spend	spent
imprimir	imprimido	impresso(s)	impressa(s)	to print	printed
limpar	limpado	limpo(s)	limpa(s)	to clean	cleaned
matar	matado	morto(s)	morta(s)	to kill	killed
morrer	morrido	morto(s)	morta(s)	to die	dead
pagar	pagado	pago(s)	paga(s)	to pay	paid
pegar	pegado	pego(s)	pega(s)	to catch	caught
prender	prendido	preso(s)	presa(s)	to arrest	arrested
salvar	salvado	salvo(s)	salva(s)	to save	saved
soltar	soltado	solto(s)	solta(s)	to release	released
suspender	suspendido	suspenso(s)	suspensa(s)	to suspend	suspended

Remark: There are other verbs with two past participles, but the most useful ones are given above.

The **regular form** (invariable) of a verb with two participles is used along with the auxiliary verb *ter* to form **perfect tenses**.

Portuguese	English
Pensei que ele tivesse pagado a conta.	I thought he had paid the bill.

The **irregular form** (variable in gender and in number) of a **verb with two past participles** is frequently used with the **verb estar** (to be) and sometimes with verbs *andar/viver* (to be) and *ficar* (to become), to form the **stative passive** and with the **verb ser** (to be), to form the **passive voice**.

Portuguese	English
A conta está paga.	The bill is paid.
A conta foi paga.	The bill was paid.

6. VERB TYPES

6.1. Auxiliary verbs

An auxiliary verb is used to form compound tenses. The main auxiliary verbs in Portuguese are *ser* (to be), *estar* (to be), *ir* (to go) and *ter* (to have).

verbs	Portuguese	English
ser	Ele é muito conhecido.	He is well known.
estar	O telefone está tocando.	The phone is ringing.
ir	Vou viajar amanhã.	I will travel tomorrow.
ter	Tem chovido bastante.	It has been raining a lot.

6.2. Modal Verbs

English modal verbs (can/may/must) are treated as a normal verb in Portuguese.

Portuguese	English
Você pode/poderia me fazer um favor?	Can/Could you do me a favor?

6.3. Reflexive, reciprocal and pronominal verbs

In Portuguese **reflexive verbs**, like *sentar-se* (to sit down) or *encontrar-se* (to meet), are followed by the reflexive pronoun *se* (oneself) in the infinitive. A verb is usually reflexive when the action refers back to the subject. A **reflexive verb** is also used to express a **reciprocal action**. In this case, at least two people are involved in the action and the reflexive pronoun, *se*, is translated as *each other* into English. Note that **pronominal verbs** are also followed by the same pronouns *me/se/hos* (myself, etc.) used along with reflexive verbs. Reflexive verbs are more common in Portuguese than in English and a reflexive verb in Portuguese is not necessarily reflexive in English and vice-versa.

verbs	Portuguese	English
reflexive	Sente-se, por favor.	Sit (yourself) down, please.
reciprocal	Eles não se conhecem.	They do not know each other.
pronominal	Não estou me sentindo bem.	I am not feeling (myself) well.

6.4. Transitive and intransitive verbs

Transitive verbs like *comprar* (to buy) or *encontrar* (to meet) need an object (what?/who?/to whom?) and **intransitive verbs** like *chegar* (to arrive) do not.

verbs	Portuguese	English
transitive	Ele comprou um presente para mim.	He bought me a present.
intransitive	Ele já chegou.	He has already arrived.

6.5. Regular and irregular verbs

Regular verbs have an **invariable radical (root)** (*falar* > *falo*) and are easy to memorize. Irregular verbs have a **variable radical** (*fazer* > *faço*), or a **minor spelling change** (*preferir* > *prefiro*) and a few verbs have a **completely different form** from their radical (*ir* > *vou*). Irregular verbs need to be memorized and practiced until they come naturally. They are perhaps the greatest challenge for any student. Note that in Portuguese, a verb can be regular in one tense, but irregular in another.

verbs	Portuguese	English
irregular	O livro está na mesa.	The book is on the table.
regular	O livro estava na mesa.	The book was on the table.

6.6. Defective verbs

A defective verb is a verb which cannot be conjugated in all tenses and it is usually replaced with another verb with the same meaning. Defective verbs which refer to animals like *latir* (to bark) can only be used in the singular and plural form. Don't concern yourself much with defective verbs as there are only a few defective verbs in Portuguese and they are rarely used.

Portuguese	English
A firma faliu . (fechou)	The company went bankrupt . (closed down)
O(s) cachorro(s) late/(latem) .	The dog(s) barks/(bark) .

6.7. Impersonal verbs

Impersonal verbs are unrelated to a particular person and they are used only in the singular form, also when used along with an auxiliary verb. Impersonal verbs usually refer to nature like *chover* (to rain), however, there are a few verbs like *dar* (to give), *fazer* (to do), *haver* (there is/are), *ter* (to have) which can also be used impersonally.

Portuguese	English
Está chovendo.	It is raining.
Dá pra você entender?	Can you understand it?
Faz dois anos que eu moro aqui.	It has been two years since I've been living here. (I've been living here for two years.)
Há/Tem muitos turistas aqui.	There are many tourists here.

Remark: Note that when a verb is used impersonally, its meaning can vary depending on the context.

7. VOICE

A verb can be used in three different ways, called voices. They are the active, passive and reflexive voice.

7.1. Active voice

In the active voice the **subject does the action**.

Portuguese	English
Ele me convidou para jantar.	He invited me for dinner.

7.2. Passive voice

In the passive voice the **subject has the action done to it**.

Portuguese	English
Fui convidada (por ele) para jantar.	I was invited (by him) for dinner.

7.3. Reflexive voice

In the reflexive voice the **action refers back to the subject or the action is reciprocal**.

Portuguese	English
Sente-se, por favor.	Sit (yourself) down, please.
Eles não se conhecem.	They don't know each other.

Não me lembro o nome dessa música.
I don't remember the name of this song.

CHAPTER II – MOODS, TENSES, VOICES AND SPEECH IN MORE DETAIL

1. INDICATIVE MOOD

The indicative mood is used to express a sure fact. Below is a table of all the twelve tenses frequently used in the indicative mood. The first six are basic tenses. You have to know them to be able to communicate and read simple texts in Portuguese. The last six tenses are for more advanced students. Practice them after the first six are mastered.

Portuguese	English
Eu falo com ele todos os dias.	I talk to him every day.
Eu estou falando com ele agora.	I am talking to him now.
Eu estava falando com ele quando você chegou.	I was talking to him when you arrived.
Eu falei com ele (ontem).	I have talked/talked to him (yesterday).
Eu falava com ele todos os dias.	I used to talk to him every day.
Eu vou falar com ele depois.	I am going to/will talk to him later.
Eu falarei com ele depois.	I am going to/will talk to him later.
Eu falaria com ele outra vez.	I would talk to him again.
Eu tenho falado muito com ele.	I have been talking a lot to him (lately).
Eu já tinha falado com ele sobre isso.	I had already talked to him about this.
Eu terei falado com ele em dois dias.	I will have talked to him in two days.
Eu teria falado com ele de novo.	I would have talked to him again.

Remark: The last four tenses (perfect tenses) are formed with the auxiliary verb *ter* (to have) + the past participle. For **regular verbs**, the **past participle ends in ado/ido**. For **irregular verbs**, the **past participle varies**. See table below.

Portuguese		English	
verb	past participle	verb	past participle
abrir	aberto	to open	opened
cobrir	coberto	to cover	covered
descobrir	descoberto	to discover	discovered
dizer	dito	to say	said
escrever	escrito	to write	written
fazer	feito	to make/do	made/done
ganhar	ganho/ganhado	to win/earn	won/earned
gastar	gasto/gastado	to spend	spent
pagar	pago/pagado	to pay	paid
pôr	posto	to put	put
ver	visto	to see	seen
vir	vindo	to come	come

1.1. Simple present (presente)

past _____ | _____ future
present

The simple present tense is used to express habitual actions, that is, to talk about things in general, something that often happens or something true. It is not used for an action that is happening now, that is, at the moment of speaking. In this case, the present continuous tense is used. The simple present tense is often used with adverbs or adverbial phrases like *always*, *often*, *never*, *normally*, *every day*, *once a year*, etc. Sometimes the simple present tense is used to express future time. These sentences usually contain future time words. The simple present tense can also be used for dramatic narrative. It is often used by radio and TV commentators at sports events to describe an action. If a temporal clause like *for + period of time*, or *it is + period of time + since* is used, the simple present is equivalent in English to the present perfect or to the present perfect continuous (See final three examples below).

Remarks:

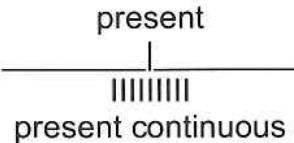

- Regular verbs ending in **ar** make the simple present tense by adding **o/a/amos/am**, verbs ending in **er** by adding **o/e/emos/em** and verbs ending in **ir** by adding **o/e/imos/em**, all to the stem of the verb.
- The **simple present tense** is the tense with the **most irregular verbs** in Portuguese. Because both the present subjunctive and the imperative are formed from the simple present indicative, irregular verbs in the present indicative are also irregular in the present subjunctive and in the imperative.

Portuguese	English
Eles jogam tênis quase todos os dias.	They play tennis almost every day.
Ele trabalha num banco.	He works in a bank.
Eu falo com você amanhã, tá bom?	I will talk to you tomorrow, ok?
Eu ligo para você depois.	I will call you later.
Faz tempo que eu não falo com ela.	I haven't talked to her for a long time.
Faz um ano que ela mora aqui.	She has been living here for one year.
Estou doente desde semana passada.	I have been sick since last week.

Ele trabalha numa empresa.
He works in a company.

1.2. Present continuous (presente contínuo)

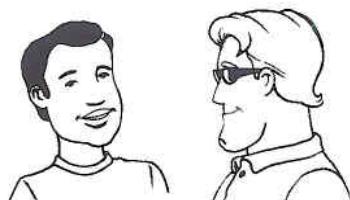

The present continuous, also called progressive form, is used to express an action happening now, that is, at the moment of speaking or in a period around now (this week/year). The present continuous tense is also used to express a gradual development. Unlike English, in Portuguese, the present continuous cannot be used to express future time when the idea of the sentence concerns a planned event (or definite intention) in the near future. In this case, the simple future should be used. Note that if a temporal clause like *for + period of time*, or *since* is used, the present continuous is equivalent in English to the present perfect continuous (See last two examples below).

Remarks:

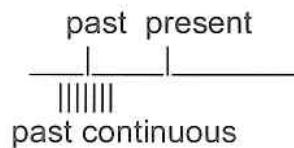

- The present continuous tense is formed with the present tense of the auxiliary verb *estar* (to be) + the present participle (*ndo*).
- The Portuguese *ndo* form is equivalent to the English *ing* form.
- To turn a verb into *ndo* in Portuguese, just drop the *r* from the infinitive and add *ndo*. e.g. *falar* > *fala* > *falando* (to speak > speaking).
- In Portuguese all verbs, except for the verb *estar* (to be), can be used to form the present continuous tense.

Portuguese	English
Vocês estão gostando da festa?	Are you enjoying the party?
O que você está fazendo?	What are you doing?
O telefone está tocando.	The phone is ringing.
Eu estou aprendendo português.	I am learning Portuguese.
Está esfriando cada vez mais.	It is getting colder and colder.
Faz dez dias que ele está viajando.	He has been travelling for ten days.
Ele está dormindo desde ontem.	He has been sleeping since yesterday.

Eles estão conversando.
They are talking.

1.3. Past continuous (passado contínuo)

The past continuous tense is used to say that somebody was in the middle of an action at a certain time in the past when another action occurred. It is also used to express two past actions in progress simultaneously.

Remarks:

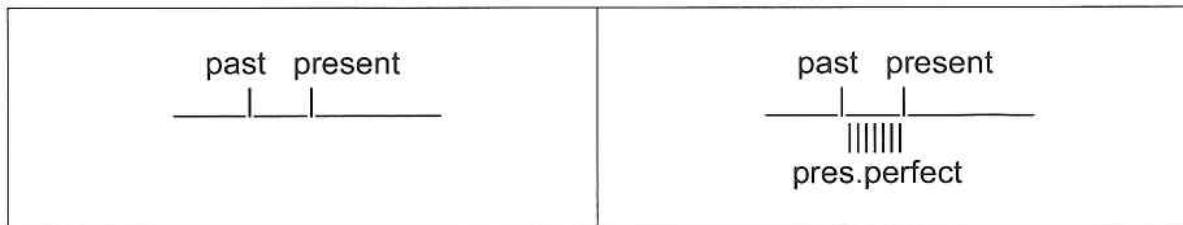

- The past continuous tense is formed with the past tense (imperfect) of the auxiliary verb *estar* (to be) + the present participle (*ndo*).
- The Portuguese *ndo* form is equivalent to the English *ing* form.
- To turn a verb into *ndo* in Portuguese, just drop the *r* from the infinitive and add *ndo*. e.g. *falar* > *fala* > *falando* (to speak > speaking).
- In Portuguese all verbs except for the verb *estar* (to be) can be used to form the past continuous tense.

Portuguese	English
Eu estava dormindo quando você chegou.	I was sleeping when you arrived.
Estava chovendo quando eu saí de casa.	It was raining when I left home.
Eles estavam almoçando quando o telefone tocou.	They were having lunch when the phone rang.
O que você estava fazendo lá?	What were you doing there?
Eu estava conversando com a minha irmã enquanto ele estava lendo .	I was talking to my sister while he was reading.

Ele **estava lendo** o jornal quando cheguei em casa.
He was reading the newspaper when I got home.

1.4. Simple past/present perfect (pretérito perfeito simples)

In Portuguese the simple past tense is used in many situations in which the present perfect tense would be required in English. That means that there is no difference between both tenses in Portuguese. The simple past tense is equivalent to both the simple past tense and the present perfect tense in English. The simple past tense is the most frequently used past tense in Portuguese. The simple past tense is used to express a completed action, which happened at some definite time in the past. In Portuguese, the simple past tense is also used for recently completed actions or past actions whose time is not given and not definite.

Remarks:

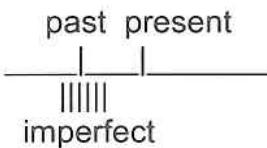

- Regular verbs ending in **ar** make the simple past tense by adding **ei/ou/amos/aram**, verbs ending in **er** by adding **i/eu/emos/eram** and verbs ending in **ir** by adding **i/iu/imos/iram**, all to the stem of the verb.
- Irregular verbs in the past tense can be hard at first, but fortunately they are less numerous than in the simple present tense and after some practice they come naturally.
- Note that the simple past tense (3rd person plural) is used to form the imperfect subjunctive (**eles foram** > **fosse**) and the future subjunctive (**eles foram** > **for**).

Portuguese	English
Eu não estudei português ontem.	I did not study Portuguese yesterday.
Choveu bastante ontem à noite.	It rained a lot last night.
Ele não trabalhou semana passada.	He did not work last week.
Acabei de chegar em casa.	I have just arrived at home.
Eu falei com ela hoje de manhã.	I have talked to her this morning.
Vocês já almoçaram?	Have you already had lunch?

Eu telefonei para ele ontem.
I called him yesterday.

1.5. Past imperfect (pretérito imperfeito)

The past imperfect tense is used to express a habit, an activity or a situation in the past which has changed or no longer exists, a frequently repeated past action or to describe something in the past. It is used to express an action that used to occur within a certain period of time in the past that is not specified. In short, it is mainly used to express an earlier action, time or period viewed in retrospect. The verb *estar* (to be) is frequently used in the past imperfect tense to express a state in the past. In speech, the past imperfect tense is frequently used where the conditional tense would be more correct.

Remarks:

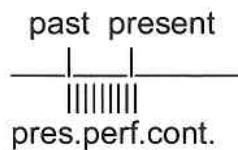

- Regular verbs ending in *ar* make the past imperfect tense by adding *ava/ávamos/avam* and verbs ending in *er/ir* by adding *ia/iámos/iam* to the stem. There are only a few irregular verbs in the past imperfect tense.
- The past imperfect is often used after words such as *antigamente* (in the past), *antes* (before), *naquela época/naquele tempo* (at that time), *quando* (when), *sempre* (always), etc., but keep in mind that there are other situations in which the past imperfect is required and these words are not necessarily used.
- In many situations the past imperfect tense is equivalent to *used to* in English.
- The past imperfect is very often confused with the simple past because when translated into English, there is sometimes no difference. Be aware that these tenses are not interchangeable. There are only a few situations in which either tense could be used, but in Portuguese they differ in meaning.

Portuguese	English
Antigamente ela fumava muito.	In the past she used to smoke a lot.
Quando eu era criança, eu não gostava de ir à escola.	When I was a child, I did not like to go to school.
Tinha/Havia muita gente na festa.	There were a lot of people at the party.
O livro estava na mesa.	The book was on the table.
Ele disse que vinha (instead of viria).	He said he would come .

Quando eu **era** criança, eu **gostava** de ler.
When I **was** a child, I **liked** to read.

1.6. Present perfect continuous (pretérito perfeito composto)

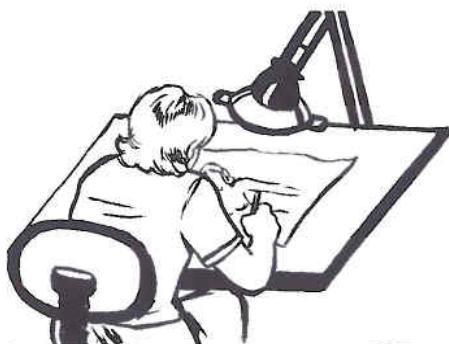

The present perfect continuous is used to express an action that has been happening frequently recently or an action that began in the past and is still not concluded in the present time.

Remarks:

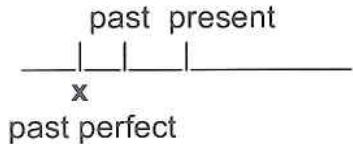

- The present perfect continuous tense is formed with the present tense of the auxiliary verb *ter* (to have) + the past participle (*ado/ido*).
- Note that in Portuguese the present perfect compound (pretérito perfeito composto) is equivalent in English to the present perfect continuous and sometimes to the present perfect tense.

Portuguese	English
Tenho falado com ele todos os dias.	I have been talking to him every day.
Tem chovido muito ultimamente.	It has been raining a lot lately.
O que você tem feito (ultimamente)?	What have you been doing (lately)?
Vocês têm ido ao clube?	Have you been (going) to the club?

Ele tem trabalhado muito ultimamente.
He has been working a lot lately.

1.7. Past perfect (pretérito mais-que-perfeito)

The past perfect is used to express an action in the past prior to another past action. There are two past perfect tenses (a compound and a simple form) in Portuguese and both have exactly the same meaning. The compound form is more frequently used and the simple form is restricted to the written language, sometimes in newspapers but mainly in literary texts.

1.7.1. Compound form

Portuguese	English
Você já tinha bebido caipirinha?	Had you already drunk caipirinha?
Eu nunca tinha vindo aqui antes.	I had never come here before.
Ele perguntou se nós tínhamos gostado da festa.	He asked if we had enjoyed the party.
Quando cheguei lá, ele já tinha saído.	When I got there, he had already left.

Remark: The compound form is formed with the past tense (imperfect) of the auxiliary verb *ter* or *haver* (to have) + the past participle (*ado/ido*). The use of *haver* (*havia/havia/havíamos/haviam*) is restricted to the written language.

1.7.2. Simple form

Portuguese	English
Você já bebera caipirinha?	Had you already drunk caipirinha?
Eu nunca viera aqui antes.	I had never come here before.
Ele perguntou se nós gostáramos da festa.	He asked if we had enjoyed the party.
Quando cheguei lá, ele já saíra.	When I got there, he had already left.

Remark: The simple form is formed from the 3rd person plural of the simple past tense. e.g. *eles foram* > drop *m* > *fôra/fôra/fôramos/foram*.

Eu nunca tinha tomado caipirinha antes.
I had never drunk caipirinha before.

1.8. Simple future (futuro do presente simples)

present

future

The simple future is used to express an action that happens in the immediate, near or remote future. The simple future is equivalent to will, shall or going to in English. It is used to express any future action, regardless of whether the action is premeditated or not. There are two future tenses in Portuguese, a compound and a simple form. Both forms have exactly the same meaning, but the compound form is more frequently used in both speech and in the written language. The simple form is not used in ordinary conversation. It can be found in newspapers. Its use is formal and restricted to the written language.

1.8.1. Compound form

Portuguese	English
Ele vai viajar amanhã.	He will/is going to travel tomorrow.
O que você vai fazer hoje à noite?	What are you going to do tonight?
Eu vou pedir um sanduíche.	I will/am going to order a sandwich.

Remark: The compound form is formed with the present tense of the auxiliary verb *ir* (to go) + the infinitive. All verbs can be used in the simple future except for verb *ir* (to go). e.g. **Vou** (never **vou ir**, which is wrong) ao cinema. (I am going to the movies.)

1.8.2. Simple form

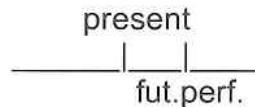

Portuguese	English
Ele viajará amanhã.	He will/is going to travel tomorrow.
O que você fará hoje à noite?	What are you going to do tonight?
Eu pedirei um sanduíche.	I will/am going to order a sandwich.

Remark: The simple form is formed by adding *ei/á/emos/ão* to the infinitive. If a verb ends in *zer* like *fazer*, *ze* must be dropped before adding the future endings. e.g. *fazer* > *far* > *farei/fará/faremos/farão*.

Ele vai pedir duas cervejas.
He will order two beers.

1.9. Future perfect (futuro do presente composto)

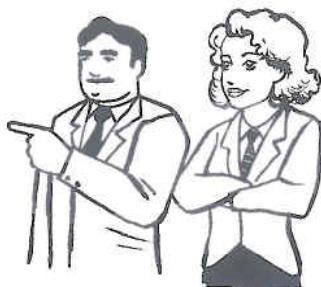

The future perfect tense is used to express a completed action in the future, that is, an action, which at a given future time, will be in the past. The future perfect tense can be found in the written language, but is rare.

Remark: The future perfect tense is formed with the simple future tense of the auxiliary verb *ter* (to have) + the past participle (ado/ido).

Portuguese	English
Amanhã a esta hora eu já terei chegado ao Brasil.	Tomorrow at this time I will have already arrived in Brazil.
Até o final do curso vocês terão aprendido todos os verbos irregulares.	By the end of the course you will have learned all the irregular verbs.
Em um ano nós teremos economizado bastante.	In a year we will have saved a lot.

Remark: In colloquial Portuguese, the future perfect is usually replaced with the simple past tense, which is **incorrect**.

Portuguese	English
Amanhã a esta hora eu já cheguei ao Brasil.	Tomorrow at this time I already arrived (will have arrived) in Brazil.

Em um ano eu já **terei vendido** aquelas casas.
In a year I **will have sold** those houses.

1.10. Present conditional (futuro do pretérito simples)

When used:

- a) would/could/should
- b) if-clause + would
- c) past + would
- d) probability in the past

The present conditional tense is used in conditional sentences to express unreal situations. It is also used to express a polite request, a wish or an advice; in reported speech introduced by a verb in the simple past tense as a past equivalent of the future tense and to express probability in the past.

Remarks:

- The present conditional tense is formed by adding **ia/ia/íamos/iam** to the infinitive. If a verb ends in **zer** like **fazer**, **ze** must be dropped before adding the present conditional endings. e.g. **fazer** > **far** > **faria/faria/faríamos/fariam**.
- Conditional sentences have two parts: the if-clause and the main clause. The verb in the if-clause is in the imperfect subjunctive tense (**falasse**) and the verb in the main clause is in the present conditional tense (**falaria**). It does not matter which clause comes first.
- Note that English modal verbs (may, can, etc.) are treated like any ordinary verb in Portuguese.

Portuguese	English
Se eu tivesse tempo, eu viajaria mais.	If I had time, I would travel more.
O que você faria se você estivesse no meu lugar?	What would you do if you were in my place?
O senhor poderia me fazer um favor?	Could you do me a favor?
Eu gostaria de falar com o gerente.	I would like to talk to the manager.
Vocês deveriam falar com ele de novo.	You should talk to him again.
Ele me disse que viria .	He told me that he would come .
Ele me falou que ela me ajudaria .	He told me that she would help me .
Ela deveria ter 17 anos naquela época.	She would/should be 17 at that time.

A senhora **poderia** repetir seu nome, por favor?
Could you repeat your name, please?

1.11. Perfect conditional (futuro do pretérito composto)

When used:

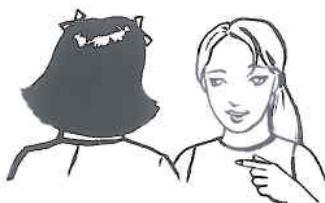

- a) would/could/should + to have + past participle
- b) if-clause in the past
- c) past + would + to have + past participle
- d) probability in the past

The perfect conditional, or past conditional, is used to express an action that could have happened in the past, but did not happen, that is, conditional sentences in the past.

Remarks:

- The perfect conditional tense is formed with the present conditional tense of the auxiliary verb *ter* (to have) + the past participle (ado/ido).
- Conditional sentences have two parts: the if-clause and the main clause. The verb in the if-clause is in the past perfect subjunctive tense (*tivesse falado*) or sometimes also in the imperfect subjunctive tense (*falasse*). The verb in the main clause is in the perfect conditional tense (*teria falado*). It does not matter which clause comes first.

Portuguese	English
O que você teria feito se você estivesse no meu lugar?	What would you have done if you were in my place?
Se eu fosse você, eu teria aceitado o convite.	If I were you I would have accepted the invitation.
Se ele tivesse tido tempo, ele teria ido com você.	If he had had time he would have gone with you.
Se eu soubesse eu teria telefonado para você.	Had I known I would have called you.

Por que você não falou comigo? Eu **teria te ajudado**.
Why didn't you talk to me? I **would have helped** you.

2. SUBJUNCTIVE MOOD

The subjunctive is used to express an unsure or a possible fact, a wish, etc. It is mainly used in dependent clauses often introduced by the conjunction *que* (that), but this does not mean that after any *que* you can use the subjunctive. The study of the subjunctive is for advanced students, but you can easily communicate without it at an early stage by using simple sentences that do not require the subjunctive. The subjunctive is difficult to understand because it is used differently in English and it doesn't correspond exactly in tense to the Portuguese tense. You will have to learn the subjunctive by heart because you cannot work it out by pure translation from the English form. The rules for using the subjunctive are very clear in Portuguese and once you know them, you should have no problem using it. The past and future subjunctive tenses are also used to express conditional sentences (if-clause).

Commonly used verbs and words that require the present, continuous and past subjunctive tenses.

Portuguese	English	Portuguese	English
verbs normally followed by que			
aconselhar	to advise	É que	It is that
acreditar	to believe	Foi/Era que	It was that
admitir	to admit	conjunctions/adverbs

Present, present continuous and present perfect subjunctive

Portuguese	English
Talvez chova.	Perhaps it will rain.
Talvez esteja chovendo.	Perhaps it is raining.
Talvez tenha chovido.	Perhaps it rained/has rained.

Imperfect, past continuous and past perfect subjunctive

Portuguese	English
Se chovesse, eu não iria.	If it rained/were to rain, I would not go.
Se estivesse chovendo, eu não iria.	If it were raining, I would not go.
Se tivesse chovido, eu não teria ido.	If it had rained, I would not have gone.

Commonly used words and phrases that require the future subjunctive tenses.

Portuguese	English
a hora que	at any time
assim que	as soon as
como	as
depois que	after
enquanto	as long as
logo que	as soon as
o que	what, whatever
onde/aonde/para onde	where, wherever
quando	when, whenever
quanto	as much as
quem	who, whoever
se	if
sempre que	always when

Future, future continuous and future perfect subjunctive

Portuguese	English
Se chover, eu não vou.	If it rains, I am not going.
Se estiver chovendo, eu não vou.	If it is raining, I am not going.
Se tiver chovido, eu não vou.	If it has rained, I am not going.

Remark: When you translate sentences using the subjunctive from Portuguese into English, you can use many different tenses in English. Remember that the subjunctive is used differently in English and it doesn't correspond exactly in tense to the Portuguese tense.

Tip: Think in Portuguese (not in English) when you use the subjunctive.

2.1. Present subjunctive (presente do subjuntivo)

When used:

- a) verbs of doubt, request, hope, desire, emotion, fear, approval, permission, etc.
- b) sentences beginning with *É ... que* (It's ... that)
- c) after certain conjunctions, adverbs and relative pronouns (*perhaps, in case, hopefully, maybe, which, even if, provided, etc.*)

The present subjunctive tense is used to express a certain attitude (doubt, desire, fear, etc.) of the speaker towards a statement. It is mainly used in dependent clauses often introduced by the conjunction *que* (that).

Remarks:

- Regular verbs ending in **ar** make the present subjunctive tense by adding **e/emos/em** and verbs ending in **er/ir** by adding **a/amos/am** to the stem.
- Irregular verbs make the present subjunctive tense from the present indicative, 1st person singular, by dropping **o** and adding present subjunctive endings. e.g. **faço** > **faç** > **faça/façamos/façam**. Note that there are a few irregular verbs, which are completely irregular and do not follow this rule. They have to be practiced until they come naturally.
- Because the present subjunctive is formed from the present indicative, irregular verbs in the present indicative are also irregular in the present subjunctive.
- In Brazil, the present subjunctive tense is rarely used correctly in speech. Many people use the present indicative tense e.g. **Você quer que eu falo com ele?** instead of the present subjunctive tense e.g. **Você quer que eu fale com ele?** (Do you want me **to talk** to him?).

The present subjunctive should not be confused with the present indicative. The subject pronouns of the main and dependent clause are usually different in the present subjunctive tense.

present	Portuguese	English
indicative	Eu quero ficar aqui.	I want to stay here.
subjunctive	Eu quero que você fique aqui.	I want you to stay here. I wish that you stay here.

The imperative and the present subjunctive are identical because both are formed from the present indicative, but the rules for using them are completely different.

mood/tense	Portuguese	English
imperative	Fale mais alto, por favor.	Speak louder, please.
pres.subjunctive	Quero que você fale mais alto.	I want you to speak louder.

Portuguese	English
Você quer que eu fale com ele?	Do you want me to talk to him?
Espero que não chova hoje à noite.	I hope that it will not rain tonight.
Calcula-se que o prejuízo chegue a R\$1.000.	They calculate that the damage will reach R\$1,000.
É possível que eles cheguem hoje.	It is possible that they arrive today.
É uma pena que vocês não possam ir.	It is a pity that you cannot go .
Talvez eu não vá mais ao Brasil.	Perhaps I will no longer go to Brazil.
Tomara que ele vorte logo.	Hopefully he will come back soon.

Talvez ele **viaje** para o Brasil nas férias.
Perhaps he **will travel** to Brazil on holiday.

2.2. Present perfect subjunctive (pretérito perfeito do subjuntivo)

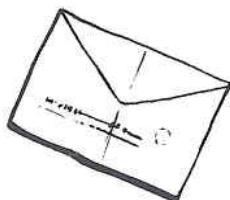

When used:

- a) verbs of doubt, request, hope, desire, emotion, fear, approval, permission, etc.
- b) sentences beginning with *É ... que* (It's ... that)
- c) after certain conjunctions, adverbs and relative pronouns (*perhaps, in case, hopefully, maybe, which, even if, provided, etc.*)

The present perfect subjunctive tense is used to express a possible completed action in the past. It is used under the same circumstances as the present subjunctive tense, that is, with certain verbs, expressions, adverbs and conjunctions. It is used as a past equivalent of the present subjunctive tense.

Remark: The present perfect subjunctive tense is formed with the present subjunctive tense of the auxiliary verb *ter* (to have) + the past participle (ado/ido).

Portuguese	English
Duvido que ele já tenha chegado.	I doubt that he has already arrived.
Espero que eles tenham me telefonado.	I hope that they have called me.
É possível que eles tenham saído.	It is possible that they have left.
Talvez ela não tenha tido tempo.	Perhaps she has not had time.

Talvez a carta tenha extraviado.
Maybe the letter has been lost.
(literally has got lost)

2.3. Present continuous subjunctive (presente contínuo do subjuntivo)

When used:

- a) verbs of doubt, request, hope, desire, emotion, fear, approval, permission, etc.
- b) sentences beginning with *É ... que* (It's ... that)
- c) after certain conjunctions, adverbs and relative pronouns (*perhaps, in case, hopefully, maybe, which, even if, provided, etc.*)

The present continuous subjunctive tense is used to express a possible action that is happening now or in a period around now. It is used under the same circumstances as the present subjunctive tense, that is, with certain verbs, expressions, adverbs and conjunctions.

Remark: The present continuous subjunctive tense is formed with the present subjunctive tense of the auxiliary verb *estar* (to be) + the present participle (ndo).

Portuguese	English
Duvido que ela esteja viajando.	I doubt that she is travelling.
É possível que ele esteja dormindo.	It is possible that he is sleeping.
Talvez eles estejam trabalhando.	Perhaps they are working.
Tomara que não esteja chovendo.	Hopefully it is not raining.

Talvez ele não esteja se sentindo bem.
Perhaps he is not feeling well.

2.4. Imperfect subjunctive (imperfeito do subjuntivo)

When used:

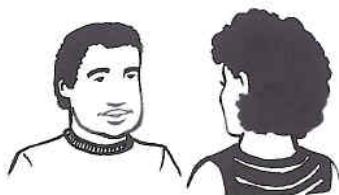

- a) conditional tenses (if-clause)
- b) verbs of doubt, request, hope, desire, emotion, fear, approval, permission, etc.
- c) sentences beginning with *Foi/Era ... que* (It was... that)
- d) after certain conjunctions, adverbs and relative pronouns (*perhaps, in case, hopefully, maybe, which, even if, provided, etc.*)

The imperfect subjunctive tense is used to express conditional sentences. It is also used in the same situations as in the present subjunctive tense, but the verb of the main clause must be in the past tense (any past tense) or in the conditional tense.

Remarks:

- Regular verbs make the imperfect subjunctive tense by dropping **r** from the infinitive and adding **sse/ssemos/ssem** to it. e.g. **falar > fala > falasse**.
- Irregular verbs make the imperfect subjunctive tense from the simple past, 3rd person plural, by dropping **ram** and adding imperfect subjunctive endings. e.g. **eles foram > fo > fosse/fôssemos/fossem**.
- Conditional sentences have two parts: the if-clause and the main clause. The verb in the if-clause is in the imperfect subjunctive tense (**falasse**) and the verb in the main clause is in the present conditional tense (**falaria**). It does not matter which clause comes first.

Portuguese	English
O que você faria se você ganhasse na loto?	What would you do if you won the lotto?
Meus pais queriam que eu fizesse medicina.	My parents wanted me to study medicine.
Estava com medo (de) que você não viesse mais.	I was afraid that you would not come any more.
Era possível que eles me ligassem .	It was possible that they would call me.
Gostaria que vocês fossem comigo.	I would like you to go with me.
Talvez ele quisesse ficar aqui.	Maybe he wanted to stay here.
A empresa queria uma pessoa que falasse inglês.	The company wanted a person who spoke English.

O que você faria, se você **estivesse** no meu lugar?
What would you do, if you **were** in my place?

2.5. Past perfect subjunctive (mais-que-perfeito do subjuntivo)

When used:

- a) conditional tenses (if-clause)
- b) verbs of doubt, request, hope, desire, emotion, fear, approval, permission, etc.
- c) sentences beginning with *Foi/Era ... que* (It was... that)
- d) after certain conjunctions, adverbs and relative pronouns (*perhaps, in case, hopefully, maybe, which, even if, provided, etc.*)

The past perfect subjunctive is used to express an unreal situation that could have happened in the past. It is an if-clause in the past.

Remarks:

- The past perfect subjunctive tense is formed with the imperfect subjunctive tense of the auxiliary verb *ter* (to have) + the past participle (ado/ido).
- Conditional sentences have two parts: the if-clause and the main clause. The verb in the if-clause is in the past perfect subjunctive tense (*tivesse falado*) and the verb in the main clause is in the perfect conditional tense (*teria falado*). It does not matter which clause comes first.

Portuguese	English
O que você teria feito se você tivesse ganhado na loto?	What would you have done if you had won the lottery?
Gostaria que você tivesse me avisado .	I wish you had informed me.
Se eu tivesse tido tempo, eu teria viajado com você.	If I had had time, I would have travelled with you.

Se ele **tivesse estudado**, ele teria passado no exame.
If he had studied, he would have passed the exam.

2.6. Past continuous subjunctive (passado contínuo do subjuntivo)

When used:

- a) conditional tenses (if-clause)
- b) verbs of doubt, request, hope, desire, emotion, fear, approval, permission, etc.
- c) sentences beginning with *Foi/Era ... que* (It was... that)
- d) after certain conjunctions, adverbs and relative pronouns (*perhaps, in case, hopefully, maybe, which, even if, provided, etc.*)

The past continuous subjunctive is **used to express conditional sentences**, that is, if-clauses in the progressive. It is **also used in the same situations as presented in the present subjunctive**, but the verb of the main clause must be in the past tense (any past tense) or in the present conditional tense.

Remark: The past continuous subjunctive tense is formed with the imperfect subjunctive tense of the auxiliary verb *estar* (to be) + the present participle (ndo).

Portuguese	English
Se ele estivesse trabalhando hoje, você poderia falar com ele.	If he were working today, you could talk to him.
Talvez eles estivessem só conversando.	Maybe they were just talking.
Pensei que você estivesse viajando.	I thought that you were travelling.

Talvez ele **estivesse** só descansando.
Maybe he **was** only taking a rest.

2.7. Future subjunctive (futuro simples do subjuntivo)

When used:

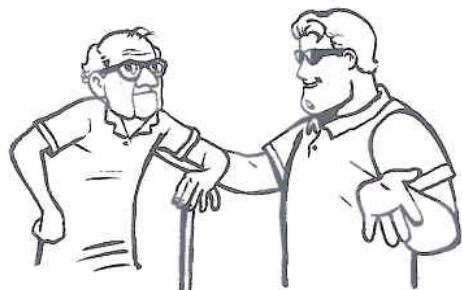

After certain words like *if*, *when*, *as soon as*, *whatever*, *whoever*, *whenever*, *wherever*, etc.

The future subjunctive is used in dependent clauses to express a possible action in the future.

Remarks:

- Regular verbs make the future subjunctive tense by adding **mos/em** to the infinitive. e.g. *falar/falar/falarmos/falarem*.
- Irregular verbs make the future subjunctive tense from the simple past tense, 3rd person plural, by dropping **am** and adding **mos/em** to it. e.g. *foram* > *for/for/formos/forem*.

Portuguese	English
Quando eu for para o Brasil, eu ligo para você.	When I go to Brazil, I will call you.
Vamos à praia se não chover.	We will go to the beach if it does not rain.
Podemos ir aonde você quiser.	We can go wherever you wish.

Podemos ir embora quando o senhor quiser.
We can leave whenever you wish.

2.8. Future perfect subjunctive (futuro composto do subjuntivo)

When used:

After certain words like *if*, *when*, *as soon as*, *whatever*, *whoever*, *whenever*, *wherever*, etc.

The future perfect subjunctive is used in dependent clauses to express a completed possible action in the future, but it is rarely used in speech. The future perfect is used under the same circumstances as the future subjunctive, that is, after certain words.

Remarks:

- The future perfect subjunctive tense is formed with the future subjunctive tense of the auxiliary verb *ter* (to have) + the past participle (*ado/ido*).
- Note that the future perfect subjunctive is usually equivalent to the present perfect in English.

Portuguese	English
Avise-me assim que ele tiver chegado .	Inform me as soon as he has arrived .
Vamos viajar quando você tiver terminado o curso.	We will travel when you have finished the course.
Não vou sair enquanto eu não tiver falado com ele.	I will not leave until I have talked to him. (literally I will not leave as long as I have not talked to him.)

Eu te ligo assim que eu **tiver falado** com ele.
I will call you as soon as I **have talked** to him.

2.9. Future continuous subjunctive (futuro contínuo do subjuntivo)

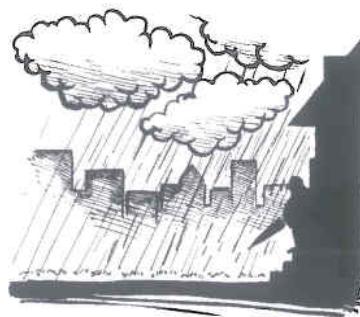

When used:

After certain words like *if*, *when*, *as soon as*, *whatever*, *whoever*, *whenever*, *wherever*, etc.

The future continuous subjunctive is used in dependent clauses to express a possible progressive action in the future. It is used under the same circumstances as the future subjunctive, that is, after certain words.

Remark: The future continuous subjunctive tense is formed with the future subjunctive tense of the auxiliary verb *estar* (to be) + the present participle (ndo).

Portuguese	English
Vamos à praia se não estiver chovendo.	We will go to the beach if it is not raining.
Se ele estiver dormindo, não tem problema.	If he is sleeping, it is no problem.
Eu ligo para você quando as crianças estiverem dormindo.	I will call you when the children are sleeping.

Se estiver chovendo, nós não vamos sair.
If it is raining, we will not go out.

3. IMPERATIVE MOOD

The imperative is used to express a command or request. It is frequently used in advertisements, instruction manuals and recipes.

Remarks:

- Regular verbs ending in **ar** make the imperative by adding **e/emos/em** and verbs ending in **er/ir** by adding **a/amos/am** to the stem.
- Irregular verbs make the imperative from the present indicative, 1st person singular, by dropping **o** and adding imperative endings. e.g. **faço > faç > faç/a/ faç/a/façamos/façam**. Note that there are a few irregular verbs, which are completely irregular and do not follow this rule.
- In Portuguese, there are **two singular forms to express the imperative**: **fala** (colloquial/spoken) and **fale** (written/spoken). Even though **fala** is grammatically incorrect because it refers to the subject pronoun **tu**, not to the subject pronoun **você**, it is widely used in speech. If **tu** is used instead of **você**, this form would be perfectly correct, but **tu** is rarely heard in Brazil today. Note that the colloquial form (**fala**) used in the imperative is the **same form** used in the 2nd person of the present indicative (e.g. **eu falo, você fala**, etc.) **Fale** is more frequently used in the written language, but it can also be used in speech. Usually only those people who speak Portuguese correctly use this form in speech.
- The 1st person plural (**falemos**) is considered very formal and rarely used in modern Portuguese except for **vamos** (let's go) which is frequently used in speech and a few other verbs like **dizer > digamos** (to say > let's say), etc.
- Subject pronouns are always omitted in the imperative, but the person addressed can be mentioned in the beginning or at the end of the phrase. e.g. **Espera, Paulo/meninas/mãe.** (Wait, Paul/girls/mother.)
- Because the imperative is formed from the present indicative, **irregular verbs in the present indicative are also irregular in the imperative**.
- The imperative and the present subjunctive are **identical** because both of them are formed from the present indicative, but the rules for using them are completely different.

Portuguese	English
Beba Coca-Cola!	Drink Coca-Cola!
Fale/Fala mais alto.	Speak louder.
Assine/Assina aqui, por favor.	Sign here, please.

Psiu! Não façam barulho!
Shhh! Don't make noise!

4. INFINITIVE

4.1. Personal infinitive (infinitivo pessoal)

When used:

- a) after prepositions
- b) with a few verbs like *to see, to allow, to hear*, etc.
- c) in sentences beginning with *É .. que* (It is..) instead of the present subjunctive

The personal infinitive is a **particular feature of the Portuguese language**. It is a tense in Portuguese and as such it is conjugated as any other verb. Both the personal and impersonal infinitive can be confused sometimes, but if the plural form can replace the singular form, it is clearly a personal infinitive. Don't confuse the personal infinitive tense with the future subjunctive tense (regular verbs are identical in both tenses). Note that the rules for using the personal infinitive and the future subjunctive are completely different. All verbs are regular in the personal infinitive while in the future subjunctive verbs can be regular or irregular. The personal infinitive is often used to replace the present subjunctive, mainly in sentences beginning with *É/Foi/Era... que* (It is/was... that), but *que* must be eliminated.

4.1.1. Simple form

Portuguese	English
Vamos embora antes de eles chegarem .	Let's go before they arrive .
Eu não ouvi vocês me chamarem .	I did not hear you call me.
É melhor nós irmos embora.	It is better we leave .

Remark: Regular and irregular verbs make the simple form by adding **mos/em** to the infinitive. e.g. *falar/falar/falarmos/falarem*.

4.1.2. Compound form

Portuguese	English
Estou contente por vocês terem vindo .	I am happy because you have come .
Foi melhor eles terem voltado cedo.	It was better they came back early.

Remark: The compound form is formed with the personal infinitive of the auxiliary verb ter (to have) + the past participle (ado/ido).

Acho melhor nós **telefonarmos** para ele.
I think it is better we **call** him.

4.2. Impersonal infinitive (infinitivo impessoal)

When used:

- a) alone
- b) after the main or the auxiliary verb
- c) after prepositions

The infinitive (or impersonal infinitive) is the verb in its simplest form, as found in a dictionary. Be aware that sometimes the infinitive is equivalent to the present participle in English. In Portuguese, the infinitive (not the gerund) is used after prepositions.

4.2.1. Simple form

Portuguese	English
Caminhar é bom.	Walking/To walk is good.
Quero falar com você.	I want to talk to you.
Vou pedir uma salada.	I will order a salad.
Gostaria de falar com o gerente.	I would like to talk to the manager.
Ao ouvir a notícia ela ficou triste.	On hearing the news she became sad.

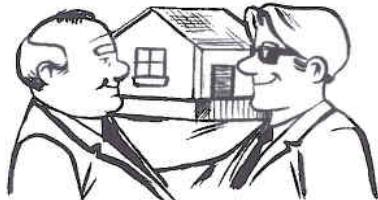

Ele não está. Você quer deixar recado?
He is not in. Would you like to leave a message?

4.2.2. Compound form

Portuguese	English
Você devia ter pedido um sorvete.	You should have ordered an ice cream.
Vocês poderiam ter ido com a gente.	You could have gone with us.

Remark: The infinitive (compound) is formed with the auxiliary verb ter (to have) + the past participle (ado/ido) and it is invariable.

Ele deveria ter comprado um apartamento.
He should have bought an apartment.

5. ACTIVE AND PASSIVE VOICE

A verb can be used in two different ways, that is, in the **active or passive voice**. In the active voice the **subject does the action** while in the passive voice the **subject has the action done to it**.

voice	Portuguese	English
active	O médico me examinou.	The doctor examined me.
passive	Eu fui examinado pelo médico.	I was examined by the doctor.

The active voice is more frequently used than the passive voice. The passive voice is more often used in the written language. The passive voice is often shortened in the written language, by showing only the past participle.

Portuguese	English
(foi) impresso no Brasil	(it was) printed in Brazil
(foi) produzido no Brasil	(it was) made in Brazil
uma agência localizada no centro	a branch located in the center
um homem considerado honesto	a man considered honest
a festa organizada pela escola	the party organized by the school
o programa proposto pelo partido	the program proposed by the party

Remarks:

- The passive voice is formed with the auxiliary verb **ser** (to be) + the past participle, which unlike in English, varies in gender (examinado/examinada) and in number (examinados/examinadas) in Portuguese.
- In a passive sentence, the agent or the doer of the action is usually omitted, but when the agent is mentioned, it is preceded by the preposition **by (por)** which in Portuguese, varies in gender (pelo/pela) and in number (pelos/pelas).
- The passive voice can be used in all tenses, but it is commonly used in the present, simple past and future tense.
- Usually only verbs which require a direct object pronoun (**who?/what?**) can be used in the passive voice.
- Past participles can be regular or irregular. Regular participles end in **ado/ido**. Irregular participles are a few and the most frequently used ones come naturally after some practice.
- In Portuguese, there are a few verbs, which have two past participles, a regular one and an irregular one. The **irregular one is used in the passive voice** and the **regular one in the active voice** with the auxiliary verb **ter** (to have) to form perfect tenses. To make the study of irregular past participles easier, there is a list of irregular past participles used with the passive voice on the next page.

5.1. Regular past participles used with the passive voice

Regular participles are made by dropping ar and adding ado to verbs ending in ar and by dropping er/ir and adding ido to verbs ending in er/ir.

Portuguese			English	
verb	masculine	feminine	verb	participle
publicar	publicado(s)	publicada(s)	to publish	published
vender	vendido(s)	vendida(s)	to sell	sold
traduzir	traduzido(s)	traduzida(s)	to translate	translated

5.2. Irregular past participles used with the passive voice

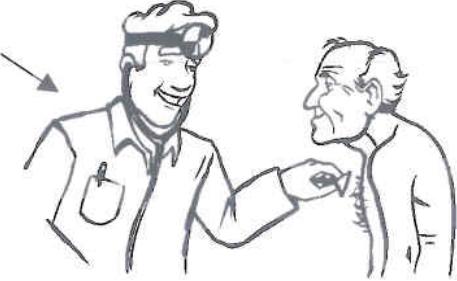

Portuguese			English	
verb	masculine	feminine	verb	participle
aceitar	aceito(s)	aceita(s)	to accept	accepted
abrir	aberto(s)	aberta(s)	to open	opened
acender	aceso(s)	acesa(s)	to light	lit
cobrir	coberto(s)	coberta(s)	to cover	covered
descobrir	descoberto(s)	descoberta(s)	to discover	discovered
dizer	dito(s)	dita(s)	to say	said
eleger	eleito(s)	eleita(s)	to elect	elected
entregar	entregue(s)	entregue(s)	to deliver	delivered
enxugar	enxuto(s)	enxuta(s)	to dry	dried
escrever	escrito(s)	escrita(s)	to write	written
exprimir	expresso(s)	expressa(s)	to express	expressed

5.4. Stative passive

Some past participles can also be used as adjectives to express a state. Besides the verb *estar* (to be), there are a few verbs like *andar* (to be), *viver* (to be) and *ficar* (to get/become) which can also be used with past participles. Be aware that in Portuguese past participles used along with these verbs vary in gender (*fechado/fechada*) and in number (*fechados/fechadas*).

Portuguese	English
A televisão está desligada .	The TV is off .
A porta está fechada .	The door is closed .
Eles estão preocupados .	They are worried .
Ela anda muito cansada .	She has been very tired lately .
Ele ficou chateado comigo .	He was upset with me .

As malas **estão pesadas**.
The suitcases **are heavy**.

5.5. The passive voice and auxiliary verbs

The passive voice can also be used along with auxiliary verbs.

Portuguese	English
Todo (o) mundo deve ser informado .	Everybody should be informed .
Seu filho precisa ser registrado .	Your son has to be registered .

5.6. Use of passive voice in impersonal sentences

In Portuguese, the passive voice is also used in impersonal sentences. The pronoun *se* is used and the subject of the sentence is unknown.

Portuguese	English
Vende-se (esta casa).	(This house is) for sale.
Consertam-se (sapatos).	Shoes (are) repaired.
Aluga-se (este apartamento).	(This apartment is) for rent.

Aluga-se (esta casa).
(This house **is**) for rent.

6. DIRECT AND REPORTED SPEECH

Direct speech is used to report someone's exact words. Direct speech is often found in the written language and it is put inside inverted commas. **Reported speech, or indirect speech, is used to report someone's speech using your own words.** In reported speech the verb is in the past if the action is over, but in the present, future, or conditional, if the action is not over.

Remarks:

- In spoken Portuguese, the tense often remains unchanged.
- When turning direct speech into a reported speech, some changes (tenses, pronouns, adverbs of place and time, etc.) are necessary.

6.1. Direct speech

Portuguese	English
Ele disse:	He said:
- "Eu estou cansado."	- "I am tired."
- "Você quer café?"	- "Do you want coffee?"
- "Eu não te vi."	- "I did not see you."
- "Talvez eles venham."	- "Maybe they will come."
- "Se você quiser, eu falo com ela."	- "If you want, I will talk to her."
- "Esperem aqui."	- "Wait here."
- "Liga pra mim amanhã."	- "Call me tomorrow."
- "Não se preocupe."	- "Don't worry."

6.2. Reported speech

Portuguese	English
O que ele disse?	What did he say?
Ele disse que ele está/estava cansado.	He said that he is/was tired.
Ele me perguntou se eu quero/queria café.	He asked me if I want/wanted some coffee.
Ele disse que ele não me viu/ não tinha me visto .	He said that he did not see/had not seen me.
Ele disse que talvez eles venham/viessem .	He said that maybe they will/would come .
Ele disse que se eu quiser/quisesse , ele fala/falaria com ela.	He said that if I want/wanted , he will/would talk to her.
Ele falou para nós esperarmos aqui.	He told us to wait here.
Ele pediu para eu ligar pra ele depois.	He asked me to call him later.
Ele disse para eu não me preocupar .	He told me not to worry .

CHAPTER III – TABLES OF PORTUGUESE VERB CONJUGATIONS

Português é mais fácil do que eu pensava.
Portuguese is easier than I thought.

Introductory remarks on verbs:

- The personal infinitive and the past perfect (simple form) do not have an equivalent in English.
- The subjunctive mood is used differently in English and it doesn't correspond exactly in tense to the Portuguese tense.
- Verbs ending in **ar** are the most common in Portuguese.
- **Regular verbs** are more numerous than irregular verbs.
- The **simple present** is the tense with the **most irregular verbs**.
- Most verbs are **stressed on the second last syllable** (*falo/falando*), unless there is an accent elsewhere (*falávamos/falará*) or they end in **r** (*falar*), **ei** (*falei/falarei*), **ou** (*falou*), **i** (*bebi*), **eu** (*bebeu*), **iu** (*assistiu*), **ão** (*falarão*) and **z** (*produz*).
- Most verbs ending in **ar/er** which have an **e** or **o** preceding the ending like *esperar* (to wait), *beber* (to drink), *morar* (to live) and *morrer* (to die) have sometimes an open pronunciation. e.g. *espero/espresa/esperam* [**e** as in bed] and *moro/mora/moram* [**o** as in law]. The same rule applies for tenses formed from the simple present tense, that is, the present subjunctive and imperative.
- The past perfect (*pretérito mais-que-perfeito simples*) is not included in the sample conjugations because it is rarely used.
- All irregular forms are written in italic in the sample conjugations for easy of recognition.
- All conjugations are illustrated with some examples.

Ela sempre estuda no fim de semana.
She always studies on the weekend.

CHAPTER IV – LIST OF PORTUGUESE VERBS

In this chapter you will find a list of regular, irregular and reflexive verbs frequently used in spoken and written language. The verbs are divided into categories according to their special characteristics and endings. Endings are very important as they indicate to which group a verb belongs. Once you know the endings of frequently used Portuguese verbs, you can immediately classify them as regular or irregular and use them correctly. Most verbs are regular and easy to learn. Some verbs are classified as irregular, but they only have a minor spelling change. A few verbs are really irregular and have to be practiced until they come naturally. It is worthwhile investing time studying the verbs early on followed by revision when required.

Remarks:

- If a verb requires a preposition it is shown in the list below.
- Pick out the verbs that you know you will use often and practice them.
- Only a few verbal idioms are listed here because they are numerous (over 4000) and have to be studied separately.
- Rarely used verbs are not listed.
- If you cannot find a verb, look it up in a dictionary.
